Where? Jeff Blumenfeld, 2009-06-17 Christopher Columbus needed a sponsor for a dangerous expedition but the King of Portugal wasn't interested. He repackaged his proposal for the Queen of Spain. She put Columbus on retainer and the rest is history. Columbus may not have been the first to discover America but he had a great publicist. That's where Jeff Blumenfeld comes in. For many years using a PR specialty called adventure marketing, Jeff has connected explorers and their projects with corporate sponsors looking to demonstrate product performance in extreme conditions. His book takes the reader from Erik Weihenmayer's expedition to be the first blind man to summit Mt Everest to the first confirmed dogsled expedition of the North Pole to Audrey Mestre's deadly free dive expedition off Bayahibe Beach in the Dominican Republic. *You Want To Go Where* is the only book that not only takes you behind the scenes of some of the most dangerous adventure expeditions in recent years but shows how you can fund and arrange your own trip including details on everything from grants to sponsorships. For anyone who's ever had a dream to scale the tallest mountain or cross the largest ocean, *You Want To Go Where* is ideal for armchair explorers and budding adventurers alike.

Riot Control Vehicles Chris McNab, 2015-02-20 Fully illustrated with a mixture of dramatic archive photos and manufacturers' images, this volume covers the little-known history of riot control vehicles. It explores the world of these vehicles from 1945 through to the present day, from adapted military armoured cars such as the Humber Pig (UK) and BRDM (Soviet Union) to the fully computerized systems of the Russian Lavina Uragan and Canadian INKAS Armored Riot Control Vehicle, showing how their development and deployment has blurred the lines between civilian actions and military operations. It charts how the vehicles have evolved in terms of technology and layout and also details how the associated weapon systems have been refined over time from water cannon and gas launchers to subsonic sound waves and microwave energy. The operational history of the vehicles is explained in the dramatic context of major incidents across the world, from the streets of Northern Ireland and Eastern Europe to the favelas of Brazil and the battlegrounds of Iraq.
