Language And Culture Kramersch:

Language and Culture Claire Kramersch, 1998-08-20 This work investigates the close relationship between language and culture. It explains key concepts such as social context and cultural authenticity using insights from fields which include linguistics, sociology and anthropology.

Context and Culture in Language Teaching Claire Kramersch, 1993-06-17 This book takes cultural knowledge in language learning not only as a necessary aspect of communicative competence but as an educational objective in its own right. If the aim of foreign language education is to foster cross-cultural awareness and self-realization, language pedagogy needs to come to grips with a range of fundamental issues: what do we mean by cultural context? Can discourse practices be taught like rules of grammar? What role does literature play in the development of second language literacy? How can learners acquire both an insider's and an outsider's understanding of the foreign culture as expressed through its language? By exploring these and other issues, the book can help language teachers reflect on their profession and place it within its larger societal and educational context. In turn, they can help learners become not only skilful users of the language but also active architects of a new cross-cultural world order.

Language and Culture Karen Risager, 2006-01-01 The book presents a new theory of the relationship between language and culture in a transnational and global perspective. The fundamental view is that languages spread across cultures and cultures spread across languages or, in other words, that linguistic and cultural practices flow through social networks in the world along partially different paths and across national structures and communities.

Language as Symbolic Power Claire Kramersch, 2020-10-29 Kramersch combines insights from linguistics, anthropology and sociology to show how language represents and constructs social reality.

The Routledge Handbook of Language and Culture Farzad Sharifian, 2014-12-17 The Routledge Handbook of Language and Culture presents the first comprehensive survey of research on the relationship between language and culture. It provides readers with a clear and accessible introduction to both interdisciplinary and multidisciplinary studies of language and culture and addresses key issues of language and culturally based linguistic research from a variety of perspectives and theoretical frameworks. This Handbook features thirty-three newly commissioned chapters which cover key areas such as cognitive psychology, cognitive linguistics, cognitive anthropology, linguistic anthropology, cultural anthropology and sociolinguistics, offer insights into the historical development, contemporary theory, research and practice of each topic and explore the potential future directions of the field. It shows readers how language and culture research can be of practical benefit to applied areas of research and practice such as intercultural communication and second language teaching and learning. Written by a group of prominent scholars from around the globe, The Routledge Handbook of Language and Culture provides a vital resource for scholars and students working in this area.

Teaching English as an International Language Le Ha Phan, 2008 Drawing on both Western and Asian theoretical frameworks, this book showcases the complexity and sophistication of the negotiations that EIL (English as an international language) teachers have to make when their

identities are challenged by values and practices that seem contradictory to their own

Language, Culture and Identity in Two Chinese Community Schools Sara Ganassin, 2020-04-06 This book investigates the social political and educational role of community language education in migratory contexts It draws on an ethnographic study that investigates the significance of Mandarin Chinese community schooling in Britain as an intercultural space for those involved To understand the interrelation of language culture and identity the book adopts a bricolage approach that brings together a range of theoretical perspectives This book challenges homogenous and stereotypical constructions of Chinese language culture and identity such as the image of Chinese pupils as conformist and deferent learners that are often repeated both in the media and in academic discussion

Teachers as Mediators in Language Immersion Education Kelle L. Marshall, Wendy D. Bokhorst-Heng, 2025-09-04 This book explores the role of teachers as intercultural mediators within language immersion education programs The authors draw on research conducted in the context of a one way French immersion program in New Brunswick Canada an officially bilingual province and country Their discussion is anchored on the landmark Douglas Fir Group framework of second language acquisition examining the implications of macro level ideologies for language education curriculum and intercultural instruction The book considers educators placement within the framework and their potential role as intercultural mediators between macro level ideologies meso level curricular implementation and their students at the micro level They even provide an amendment to the framework that models this mediating role Through interview data with entry point early French immersion teachers and principals of their schools the authors emphasise the importance of theoretically situating teachers positions as mediators of ideology and culture Through this we can fully understand what it means to incorporate intercultural competence into language learning They argue that teachers receive little support either through curriculum or through training on how to engage with inter cultural instruction in their practice They then describe their own course for training pre and in service teachers on intercultural mediation in their language education practice applicable to a variety of language learning models and contexts

Intercultural Learning in Modern Language Education Erin Kearney, 2015-11-02 Many educators aim to engage students in deeply meaningful learning in the language classroom often facing challenges to connect the students with the culture of the language they are learning This book aims to demonstrate that substantial intercultural learning can and does occur in the modern language classroom and explores the features of the classroom that support meaningful culture in language learning The author argues that transformative modern language education is intimately tied to a view of language learning as an engagement in meaning making activity or semiotic practice The empirical evidence presented is analyzed and then linked to both the theorizing of culture in language teaching and to practical concerns of teaching

Intercultural Language Teaching and Learning Anthony J. Liddicoat, Angela Scarino, 2013-02-05 This wide ranging survey of issues in intercultural language teaching and learning covers everything from core concepts to program evaluation and advocates a fluid responsive approach to teaching language

that reflects its central role in fostering intercultural understanding Includes coverage of theoretical issues defining language culture and communication as well as practice driven issues such as classroom interactions technologies programs and language assessment Examines systematically the components of language teaching language itself meaning culture learning communicating and assessments and puts them in social and cultural context Features numerous examples throughout drawn from various languages international contexts and frameworks Incorporates a decade of in depth research and detailed documentation from the authors collaborative work with practicing teachers Provides a much needed addition to the sparse literature on intercultural aspects of language education

Multilingual Subject Claire Kramsch,2013-01-10 By drawing on multiple examples of real world language learning situations this book explores the subjective aspects of the language learning experience *Language and Culture* Claire J. Kramsch,1998 *Teachers as Mediators in the Foreign Language Classroom* Michelle Kohler,2015-01-12

Language teachers are key figures in preparing young people for participation in an increasingly multilingual and culturally diverse world yet little is known about how they go about this in practice This book uses examples of classroom interaction to reveal how teachers of languages act as intercultural mediators and the implications of this for practice To date there has been little exploration of how teachers mediate language and culture learning from an intercultural perspective and what underlies their mediation practices in terms of their conceptions of intercultural language teaching and learning This book offers an account of what teachers are thinking feeling and doing as they enact an intercultural perspective on language teaching and learning

Foreign Language Research in Cross-Cultural Perspective Kees de Bot,Ralph B. Ginsberg,Claire Kramsch,1991-04-19 This volume focuses on priorities for research in language pedagogy The aim is to give an up to date overview of current thinking about important research issues such as the viability of large scale comparisons the quantitative qualitative research controversy new trends in language testing and evaluation and the role of different learning environments In their discussions of these issues researchers from the US and from different countries in Europe show to what extent the priorities differ on both sides of the Atlantic Ocean

Language, Culture, Identity and Citizenship in College Classrooms and Communities Juan C. Guerra, 2015-10-05 Language Culture Identity and Citizenship in College Classrooms and Communities examines what takes place in writing classrooms beyond academic analytical and argumentative writing to include forms that engage students in navigating the civic political social and cultural spheres they inhabit It presents a conceptual framework for imagining how writing instructors can institute campus wide initiatives such as Writing Across Communities that attempt to connect the classroom and the campus to the students various communities of belonging especially students who have been historically underserved This framework reflects an emerging perspective writing across difference that challenges the argument that the best writing instructors can do is develop the skills and knowledge students need to make a successful transition from their home discourses to academic discourses Instead the value inherent in the full repertoire of linguistic cultural and semiotic resources students use in their varied communities of belonging needs to be acknowledged and students need to be encouraged to call on these to the fullest extent possible in the course of learning what they are being taught in the writing classroom Pedagogically this book provides educators with the rhetorical discursive and literacy tools needed to implement this approach
