Last Stand English Edition:

Myanmar, the last stand (English version) Frédéric Debomy, 2023-02-01 X Now or Never Is everything will be ok Fr d **Last Stand of the Louisiana Shrimpers** Emma Christopher Lirette, 2022-08-24 In recent years shrimpers on the Louisiana coast have faced a historically dire shrimp season with the price of shrimp barely high enough to justify trawling Yet many of them wouldn t consider leaving shrimping behind despite having transferrable skills that could land them jobs in the oil and gas industry Since 2001 shrimpers have faced increasing challenges to their trade an influx of shrimp from southeast Asia several traumatic hurricane seasons and the largest oil spill at sea in American history In Last Stand of the Louisiana Shrimpers author Emma Christopher Lirette traces how Louisiana Gulf Coast shrimpers negotiate land and blood sea and freedom and economic security and networks of control This book explores what ties shrimpers to their boats and nets Despite feeling trapped by finances and circumstances they have created a world in which they have agency Lirette provides a richly textured view of the shrimpers of Terrebonne Parish Louisiana calling upon ethnographic fieldwork archival research interdisciplinary scholarship and critical theory With evocative lyrical prose she argues that in persisting to trawl in places that increasingly restrict their way of life shrimpers build fragile quietly defiant worlds adapting to a constantly changing environment In these flickering worlds shrimpers reimagine what it means to work and what it The Wehrmacht's Last Stand Robert M. Citino, 2020-07-09 By 1943 the war was lost and most means to make a living German officers knew it Three guarters of a century later the guestion persists What kept the German army going in an increasingly hopeless situation Where some historians have found explanations in the power of Hitler or the role of ideology Robert M Citino the world's leading scholar on the subject posits a more straightforward solution Bewegungskrieg the way of war cultivated by the Germans over the course of history In this gripping account of German military campaigns during the final phase of World War II Citino charts the inevitable path by which Bewegungskrieg or a war of movement inexorably led to Nazi Germany's defeat The Wehrmacht's Last Stand analyzes the German Totenritt or death ride from January 1944 with simultaneous Allied offensives at Anzio and Ukraine until May 1945 the collapse of the Wehrmacht in the field and the Soviet storming of Berlin In clear and compelling prose and bringing extensive reading of the German language literature to bear Citino focuses on the German view of these campaigns Often very different from the Allied perspective this approach allows for a more nuanced and far reaching understanding of the last battles of the Wehrmacht than any now available With Citino's previous volumes Death of the Wehrmacht and The Wehrmacht Retreats The Wehrmacht s Last Stand completes a uniquely comprehensive picture of the German army's strategy operations and performance against the Allies in World War II

The Last Stand of the Gorilla C. Nellemann, Ian

Redmond, Johannes Refisch, 2010 Gorillas the largest of the great apes are under renewed threat across the Congo Basin from Nigeria to the Albertine Rift Poaching for bushmeat loss of habitat due to agricultural expansion degradation of habitat from logging mining and charcoal production are amongst these threats in addition to natural epidemics such as ebola and the new risk of diseases passed from humans to gorillas Alarmingly parts of the region are experiencing intensified exploitation and logging of its forest in some cases even within protected areas In the DRC many of these activities are controlled by militias illegally extracting natural resources such as gold tin and coltan as well as producing charcoal for local communities urban areas camps for people displaced by fighting and sometimes even to communities across the border These militias are located motivated armed and financed directly by this illegal extraction of minerals timber and charcoal A network of intermediaries including multinational companies or their subsidiaries neighbouring countries and corrupt officials are involved in the transportation and procurement of resources which stem from areas controlled by militia or for which no legal exploitation permission exists Re-visiting Female Evil Melissa Dearey, Susana Nicolás, Roger Davis, 2017-08-28 Reflecting current trends in scholarly analysis of evil and the feminine the chapters contained in Re visiting Female Evil focus upon various re interpretations of evil femininities as a cultural signifier of agency transgression and crisis re interpreting them through rewriting of other stories hermeneutic re interpretations of ancient classical texts and revised film stage adaptations These papers illustrate how gendered cultural myths of women's intrinsic connection to evil still persist in today's patriarchal society though in variant and updated forms Mischievous beguiling seductive lascivious unruly carping vengeful and manipulative from the Disney princess to the murderous Medea these authors grapple with our understanding of what it is to be and do evil exploring the possible sources of the fear and hatred of women and the feminine as well as their continual fascination and appeal and how these manifest in a range of real life and fictional narratives that cross times cultures and media Athenaeum .1872 Humanity's Last Stand Nicanor Perlas, 2018 The twenty first century is the age of science and technology It will also be the age when humanity confronts for the first time a challenge that may overwhelm and destroy the human species itself in as little as 12 to 20 years from now This is the challenge of artificial intelligence AI Deployed properly AI will confer tremendous benefits to society It is already doing this Deployed inappropriately or mistakenly AI will undermine human civilization as it is also starting to do and could then lead to the extinction of humanity Scientists philosophers and engineers call this latter possibility the existential risk of AI The fate of our future is literally in our hands Nicanor Perlas from the preface Although still in its earliest stages artificial intelligence is radically transforming all aspects of society With the immanent emergence of Artificial Super Intelligence ASI and the illusory temptations of transhumanism humankind stands at a crossroads Nicanor Perlas makes an urgent plea in this book It is imperative he says that we take immediate steps to ensure that digitized technology is aligned to human values and priorities Otherwise ASI will kill the essence of our humanity Furthermore if we do not master it now ASI will transform humanity into its own image ultimately it

will destroy the human race AI experts have not offered a single cogent solution to this existential threat Rudolf Steiner however not only foresaw these developments but also provided clear alternatives Steiner who developed a contemporary scientific approach to spirituality provided philosophical ontological and social innovations to save humanity from this technological abyss It is the task of the global anthroposophic movement to pioneer this civilization saving work to establish spiritual scientific ideas in mainstream culture that would allow AI to emerge in a healthier societal context Perlas offers an overview of the AI phenomenon together with its related transhuman concepts of perfecting humanity outlining the critical internal and external responses needed to meet them consciously. In particular the author addresses the movement connected to the work of Rudolf Steiner indicating its all important tasks to cooperate with progressive individuals and movements including scientists and civil society activists to mobilize its daughter movements for action and ultimately to cooperate with the spiritual powers that have guided and served humanity since the dawn of time This says Perlas is humanity s last stand Failure is not an option **Beowulf as Children's Literature** Bruce Gilchrist, Britt Mize, 2021-12 Beowulf as Children's Literature brings together a group of scholars and creators to address important issues of adapting the Old English poem into textual and pictorial forms that appeal to children past and present Selective Remembrances Philip L. Kohl, Mara Kozelsky, Nachman Ben-Yehuda, 2008-11-15 When political geography changes how do reorganized or newly formed states justify their rule and create a sense of shared history for their people Often the essays in Selective Remembrances reveal they turn to archaeology employing the field and its findings to develop nationalistic feelings and forge legitimate distinctive national identities Examining such relatively new or reconfigured nation states as Iran Irag Turkey Israel Russia Ukraine India and Thailand Selective Remembrances shows how states invoke the remote past to extol the glories of specific peoples or prove claims to ancestral homelands Religion has long played a key role in such efforts and the contributors take care to demonstrate the tendency of many people including archaeologists themselves to view the world through a religious lens which can be exploited by new regimes to suppress objective study of the past and justify contemporary political actions The wide geographic and intellectual range of the essays in Selective Remembrances will make it a seminal text for archaeologists and historians Twentieth Century ,1914 The Nineteenth century and after Doug Pratt's DVD Douglas Pratt, 2004-10 The ultimate guide to DVD by the world's leadding authority on the London Oscar Wilde's Last Stand Philip Hoare, 2017-01-17 A New York Times Notable Book of the Year that Sir Ian medium McKellen called a shocking tale of heroes and villains illuminating and upsetting in equal measure The first production of Oscar Wilde's Salom in 1918 with American exotic dancer Maud Allan dancing lead ignited a firestorm in London spearheaded by Noel Pemberton Billing a member of Parliament and self appointed guardian of family values Billing attacked Allan in the right wing newspaper Vigilante as a member of the Cult of the Clitoris a feminine version of the Cult of the Wilde a catchall for the degeneracy and perversion he was convinced had infected the land He claimed that a black book was in the

Education,1916 Caledonia's Last Stand Nat Edwards,2007 The history alone could not explain the colonys disastrous outcome you really had to stand on the shore of Punta Escoces to realize that the Scots were bound to disaster the moment they chose the site to bear the name Caledonia The bay was a beautiful deadly trap On 2 November 1698 a fleet landed on the Isthmus of Darien to create a colony and launch a new Scottish trading empire Eighteen months later the colony had seen the loss of ten ships almost 400 000 and the lives of 2 000 souls Nat Edwards invites himself to Panama the real life setting for an almost unbelievable 17th century expedition of Scottish hope and adventure His erratic odyssey to find the lost graves of the Scots settlers neatly blends pirates street riots treasure hunters indigenous peoples and killer bees with the astonishing facts he sets out with Nats discoveries are often frustrating occasionally freakish but always fascinating

Masada Myth Nachman Ben-Yehuda, 1996-01-01 In 73 A D legend has it 960 Jewish rebels under siege in the ancient desert fortress of Masada committed suicide rather than surrender to a Roman legion Recorded in only one historical source the story of Masada was obscure for centuries In The Masada Myth Israeli sociologist Nachman Ben Yehuda tracks the process by which Masada became an ideological symbol for the State of Israel the dramatic subject of movies and miniseries a shrine venerated by generations of Zionists and Israeli soldiers and the most profitable tourist attraction in modern Israel Ben Yehuda describes how after nearly 1800 years the long complex and unsubstantiated narrative of Josephus Flavius was edited and augmented in the twentieth century to form a simple and powerful myth of heroism He looks at the ways this new mythical narrative of Masada was created promoted and maintained by pre state Jewish underground organizations the Israeli army archaeological teams mass media youth movements textbooks the tourist industry and the arts He discusses the various organizations and movements that created the Masada experience usually a ritual trek through the Judean desert followed by a climb to the fortress and a dramatic reading of the Masada story and how it changed over decades from a Zionist pilgrimage to a tourist destination Placing the story in a larger historical sociological and psychological context Ben Yehuda draws upon theories of collective memory and mythmaking to analyze Masada's crucial role in the nation building process of modern Israel and the formation of a new Jewish identity An expert on deviance and social control Ben Yehuda looks in particular at how and why a military failure and an enigmatic troubling case of mass suicide in conflict with Judaism s teachings were reconstructed and fabricated as a heroic tale Oncogenes, Aneuploidy, and AIDS Harvey Bialy, 2004 According to author Harvey Bialy the work of molecular biologist Peter Duesberg has been grossly distorted by the media and scientific establishments Until recently the scientific community and most notably those from the National Institute for Health have been unwilling to look at his provocative theories of different causes for cancer and HIV AIDS Inspired by UC Berkeley's rare creation of an archive for Duesberg's papers this book explores Duesberg's early groundbreaking work with viruses and oncogenes his contentious fights with other scientists and the profound influence of his life s work Maize
