regime nor the international trade regime is in a stage which invites celebration. Instead both are facing difficult and fundamental challenges to their very existence from the outside but also from within. So while there may be no time to celebrate anniversaries, they are also often used for reflection about the past and the future. Hence EYIEL 5 2014 considers these two anniversaries ample moments to reflect on the legacy and the current status of the main two pillars of International Economic Law. In its Part one Part two of EYIEL 5 2014 brings together contributions on the EU's Deep Trade Agenda on Current Approaches to the International Investment Regime in South America on the Multilayered System of Regional Economic Integration in West Africa and on the Tripartite Free Trade Area as well as on India and her Trade Agreements. Part three contains treatises of developments in the World Customs Organization the World Intellectual Property Organization and in International Investment Law. After the book reviews in Part four EYIEL 5 2014 is complemented with an Annex containing the Case on exchange rate manipulation and crisis caused guarantees to financial institutions and the Best Submissions of the 11th EMC2 ELSA WTO Moot Court Competition of the Harvard team for the complainant and the Leuven team for the respondent. The case not only addresses issues of current interest but also links the subjects of our two special focusses nicely together.
