Reports ,1987 **Product-Focused Software Process Improvement** Pekka Abrahamsson, Luis Corral, Markku

Oivo, Barbara Russo, 2015-11-28 This book constitutes the refereed proceedings of the 16th International Conference on Product Focused Software Process Improvement PROFES 2015 held in Bolzano Italy in December 2015 The 18 revised full papers presented together with 10 short papers and 18 workshop papers were carefully reviewed and selected from 50 submissions The papers are organized in topical sections on lessons learned from industry research collaborations instruments to improve the software development process requirements features and release management practices of modern development processes human factors in modern software development effort and size estimation validated by professionals empirical generalization software reliability and testing in industry workshop on processes methods and tools for engineering embedded systems workshop on human factors in software development processes and workshop on software startups state of the art and state of the practice *Expertise* Mirko Farina, Andrea Lavazza, Duncan

Pritchard, 2024-05-22 This book offers a collective study of issues to do with experts and expertise a topic of tremendous contemporary significance The perspectives are philosophical but draw on relevant work from the sciences and social sciences In addition in keeping with other volumes in Oxford University Press's Engaging Philosophy series many of the papers in the volume have an applied dimension in that they examine the issues in practical settings The questions discussed include the following What is an expert Who decides who the experts are Should we always defer to experts How should expertise inform public policy What happens when the experts disagree Must experts be unbiased Should all experts be treated the same or does it matter what the source of the expertise is How should the testimony of experts be reported by the media The chapters in the volume are organized into six sections expertise and trust situated and group expertise expertise and public policy expertise and virtue expertise about value and new directions This volume will be of interest to scholars in such fields as philosophy sociology political theory psychology cognitive science and bioethics It will also be of relevance to policy makers interested in the role that expertise plays in public policy International Asia Conference on Industrial Engineering and Management Innovation (IEMI2012) Proceedings Ershi Qi, Jiang Shen, Runliang Dou, 2013-05-29 The

International Conference on Industrial Engineering and Engineering Management is sponsored by the Chinese Industrial Engineering Institution CMES which is the only national level academic society for Industrial Engineering The conference is held annually as the major event in this arena Being the largest and the most authoritative international academic conference held in China it provides an academic platform for experts and entrepreneurs in the areas of international industrial engineering and management to exchange their research findings Many experts in various fields from China and around the world gather together at the conference to review exchange summarize and promote their achievements in the fields of industrial engineering and engineering management For example some experts pay special attention to the current state of the application of related techniques in China as well as their future prospects such as green product design quality control and management supply chain and logistics management to address the need for amongst other things low carbon energy

saving and emission reduction They also offer opinions on the outlook for the development of related techniques The proceedings offers impressive methods and concrete applications for experts from colleges and universities research institutions and enterprises who are engaged in theoretical research into industrial engineering and engineering management and its applications As all the papers are of great value from both an academic and a practical point of view they also provide research data for international scholars who are investigating Chinese style enterprises and engineering management

Evaluation of Novel Approaches to Software Engineering Joaquim Filipe, Leszek A. Maciaszek, 2013-12-20 This book constitutes the thoroughly refereed proceedings of the 8th International Conference on Evaluation of Novel Approaches to Software Engineering ENASE 2013 held in Angers France in July 2013 The 18 full papers presented were carefully reviewed and selected from 46 submissions The papers reflect a growing effort to increase the dissemination of new results among researchers and professionals related to evaluation of novel approaches to software engineering By comparing novel approaches with established traditional practices and by evaluating them against software quality criteria the ENASE conferences advance knowledge and research in software engineering identify most hopeful trends and propose new directions for consideration by researchers and practitioners involved in large scale software development and integration
