**The Philosopher's Stone for Sustainability** Yoshiki Shimomura, Koji Kimita, 2012-09-26 Industrial Product Service Systems IPS2 which is defined as an integrated industrial product and service offering that delivers value in use has

expanded rapidly over the last decade IPS2 has allowed us to achieve both high added value and high productivity and has enriched our QOL by improving the performance of products and services We are now struggling with many awkward issues related to sustainability but IPS2 is expected to be the philosopher s stone for solving these issues Following the pattern of conferences held in Cranfield in 2009 Link ping in 2010 and Braunschweig in 2011 the fourth International CIRP Conference on Industrial Product Service Systems held on November 8 9 2012 in Tokyo will cover various aspects of IPS2 Topics planned for this year s conference reflect the latest IPS2 information in both the natural sciences and humanities and include case studies from various industries IPS2 is still a relatively new field so it is important to keep track of the entire context in order to promote more cross sectional cooperation between multimodal fields and disciplines The fourth International CIRP Conference on Industrial Product Service Systems will serve as a vital platform for such collaborations and the discussion of new scientific ideas

**Troubleshooting and Repairing Commercial Electrical Equipment** David Herres, 2013-07-13 A PRACTICAL GUIDE that shows maintenance and construction electricians how to successfully repair commercial and industrial electrical equipment Troubleshooting and Repairing Commercial Electrical Equipment is the first work that offers a practical approach to diagnosing and repairing commercial industrial electrical equipment covering everything from motors computers elevators and fire alarm systems to heavy duty ovens and audio equipment If you are a licensed construction or maintenance electrician who repairs malfunctioning industrial electrical equipment this one of a kind guide can help you become more competent in your profession Inside you ll find ways to become faster more efficient and able to achieve a much higher success rate in restoring large electrical equipment without damaging it introducing an additional defect or creating a hazard This invaluable resource also includes information for those seeking licensing and certification as well as different measures that should be taken to ensure that a UL or other agency listing is not voided Presents a new system of diagnostics based on the difficulty of each procedure and the probability of its success Emphasizes a practical approach to ensure that equipment is fixed properly Uses a blend of basic electrical theory and sophisticated mathematical equations that both experienced technicians and apprentices can learn from Includes separate chapters on elevators fire alarm systems motors largescale stereo equipment and industrial appliances Discusses related licensing and certification as they pertain to troubleshooting and repair Written by a Master Electrician with more than 35 years of experience *Selling Technology* Asaf Darr, 2018-07-05 Selling Technology offers a look at high tech markets from within through the experience of salespeople purchasing agents and engineers who construct markets for emergent technologies through their daily engagement in sales interactions Although sales occupations comprise 12 percent of the American labor force sales work has been a neglected area of study Asaf Darr's ethnographic exploration of the sales process for standard and emergent technology argues that our cultural stereotypes of sales work and salespeople shaped during the industrial era and through popular images of the Yankee peddler and the car salesman no longer apply to the changing nature of sales in an information economy In the high technology settings in which cutting edge artifacts are traded Darr finds that sales work deviates sharply from our traditional cultural images The educational level and technical skills of the sales force are increasing sellers and buyers engineers engage in co development and long term collaborative relationships are replacing brief sales

encounters A growing number of work tasks and skills previously performed and mastered in the design or production phases have become part of the sale of emergent technology New control mechanisms over the work of the sales engineers are also appearing Unlike most ethnographic studies of salespeople which focus on the insurance finance and retail sectors Darr s groundbreaking book turns to the daily sales practices of an information economy
