Make it to Midnight Jim Denning, 2018-06-25 Therefore do not worry about tomorrow for tomorrow will worry about itself Each day has enough trouble of its own Matthew 6 34 Don t worry Sounds so simple doesn t it In Matthew 6 34 Jesus is encouraging Christians to live in the present It has been said that depression is pain from the past and anxiety is pain from the future In order to live a happy life we must learn to live in the present Learning to live this way the way Jesus prescribes requires a change in our thinking In order for this to happen an understanding of the inner working of our brains is required The human brain is comprised of two components a thinking brain and a feeling brain Depression anxiety PTSD and a host of other mental disorders can be traced back to a conflict between the thinking brain and the feeling brain Make it to Midnight illustrates that each of us has two sides to our psyche that are often in conflict Through his research Jim Denning discovered that we not only have two components to our psyche we actually have two brains Jim s goal for this book is to explain the anatomy of that conflict and provide its readers with the tools necessary to achieve a better quality of life and ultimately inner peace Conservation Study Guide Douglas D. and productive life in recovery *A Comprehensive Guide for Counselor Education* Devona M. Stalnaker-Shofner, Tanisha N. Sapp, 2025-02-06 This book prepares doctoral learners and new counselor educators to enter into the profession of counselor education and supervision. The work outlines the total experience of teaching in counselor education by providing a practical guide for navigating higher education using best practices grounded in research and based on the lived experiences of seasoned counselor educator contributors. Using case scenarios, points of reflection, as well as the professional and personal accounts of current educators, this book serves as a soup-to-nuts guide outlining current best practices in counselor education. Written from a social justice perspective with efforts to emphasize diversity, equity, inclusion, accessibility, and belonging, more than 70% of the textbook contributors identify as Black, Indigenous, or People of Color (BIPOC). Additionally, all contributors identify as female with varying sexual identities, physical body sizes, and abilities, thus disrupting the dominant narrative. The chapters range in scope and cover topics such as best practices and strategies for teaching, praxis, curriculum development, and strategies to develop CACREP specialization programs based on the 2024 CACREP standards and extant research. The book also provides chapters addressing recommendations for navigating higher education, such as finding and landing the job, the first year as a counselor educator, the promotion and tenure process, and concludes with a section on personal and professional development for new and experienced counselor educators. A bonus feature of this book is the inclusion of a technological component offering a companion website with a repository of activities, exercises, and resources. **The Ore Bin**, 1977
