**A Victor Hugo Encyclopedia** John Andrew Frey, 1999-10-30 Though he wrote more than a century ago French author Victor Hugo 1802-1885 continues to capture the imagination of contemporary readers both in France and around the world In the United States he is best remembered as the author of the novel *Les Misérables* 1862 which has been adapted for the stage and of *Notre Dame de Paris* 1831 more commonly known to Americans as *The Hunchback of Notre Dame* But Hugo was also a poet and dramatist a great religious and social thinker and one of the most important shapers of French Romanticism As a poet he created new verse forms explored historical and mythological

themes and criticized social issues of his time Through his drama he united prose and poetry and examined the politics of England and Spain In all of his works he discussed such theological and social issues as the problem of evil the nature of war and peace and the problems of capital punishment The volume begins with a short biography that places Hugo within the context of 19th century France The biography tells of his early years during which he began to form his religious and political views his maturation as a writer and thinker during the 1830s and his political exile during which he wrote some of his finest poetry The alphabetically arranged entries that follow discuss his works characters themes and ideas as well as historical persons and places that figured prominently in his life and writings Many of the entries cite sources of additional information and the volume closes with a selected general bibliography **French News** ,1963 **Cultural Encounters in**

**Translated Children's Literature** Helen Frank,2014-04-08 Cultural Encounters in Translated Children s Literature offers a detailed and innovative model of analysis for examining the complexities of translating children s literature and sheds light on the interpretive choices at work in moving texts from one culture to another The core of the study addresses the issue of how images of a nation locale or country are constructed in translated children s literature with the translation of Australian children s fiction into French serving as a case study Issues examined include the selection of books for translation the relationship between children s books and the national and international publishing industry the packaging of translations and the importance of titles blurbs and covers the linguistic and stylistic features specific to translating for children intertextual references the function of the translation in the target culture didactic and pedagogical aims euphemistic language and explicitation and literariness in translated texts The findings of the case study suggest that the most common constructs of Australia in French translations reveal a preponderance of traditional Eurocentric signifiers that identify Australia with the outback the antipodes the exotic the wild the unknown the void the end of the world the young and innocent nation and the Far West Contemporary signifiers that construct Australia as urban multicultural Aboriginal worldly and inharmonious are seriously under represented The study also shows that French translations are conventional conservative and didactic showing preference for an exotic rather than local specificity with systematic manipulation of Australian referents betraying a perception of Australia as antipodean rural exoticism The significance of the study lies in underscoring the manner in which a given culture is constructed in another cultural milieu especially through translated children s literature **The British Library General Catalogue of Printed Books 1976 to 1982** British Library,1983

**Mendacity and the Figure of the Liar in Seventeenth-Century French Comedy** Emilia Wilton-Godberfforde,2017-06-14 The first book length study devoted to this topic Mendacity and the Figure of the Liar in Seventeenth Century French Comedy offers an important contribution to scholarship on the theatre as well as on early modern attitudes in France specifically on the subject of lying and deception Unusually for a scholarly work on seventeenth century theatre it is particularly alert to plays as performed pieces and not simply printed texts The study also distinguishes itself by offering original readings of Moli re alongside innovative analyses of other playwrights The chapters offer fresh insights on well known plays by Moli re and Pierre Corneille but also invite readers to discover lesser known works of the time by writers such as Benserade Thomas Corneille Dufresny and Rotrou Through comparative and sustained close readings including a linguistic and speech act approach a historical survey of texts with an analysis of different versions and a study of irony the reader is shown the manifest ways in which different playwrights incorporate the comedic tropes of lying and scheming confusion and unmasking Drawing particular attention to the levels of communicative or mis communicative exchanges on the character to character axis and the character to audience axis this work examines the process whereby characters in the comedies construct narratives designed to trick misdirect dazzle confuse or exploit their interlocutors In the different incarnations of seducer parasite cross dresser duplicitous narrator messenger and deluded mythomaniac the author underscores the way in which the figure of the liar both entertains and troubles making it a fascinating subject worthy of detailed investigation
