Design Thinking for Entrepreneurs and Small Businesses Beverly Rudkin Ingle, 2014-01-09 Having met Beverly Ingle and hearing her speak about design thinking, I was enlightened and enthused. With a depth of knowledge and obvious passion for the usage of design thinking, she has already helped many business people, myself included, inject greater creativity into problem solving to deliver better results, something that is a must for left-brainers. She has an amazingly refreshing ability to create deep understanding within her audience and a hands-on, practical approach ensures that the results are manageable and within your grasp. Jill Robb, CEO, Ambition Digital, Belfast, United Kingdom. **Design Thinking for Entrepreneurs and Small Businesses** Putting the Power of Design to Work is the first book on the subject for smaller businesses. Until now, design thinking, a methodology for solving business problems and identifying opportunities, has been the playground for companies with big budgets, giving them the advantage of the innovation that comes from using the latest design thinking tools emerging from Stanford, Harvard, Northwestern and elsewhere. Now, thanks to design thinking expert Beverly Ingle, entrepreneurs and small business owners can make the design thinking playground their own and on a much smaller budget. Ingle provides the tools entrepreneurs need, as well as step-by-step processes that show how to use design thinking methods to transform your business and drive organizational success. **Design Thinking for Entrepreneurs and Small Businesses** offers just enough theory to provide you with working knowledge of design thinking, but its value lies in the practical, proven, hands-on information that you can put to use immediately. You will learn: How to incorporate design thinking processes into everyday operations and in what areas of business the approach is most valuable; How to use the most prevalent and popular design thinking tools like ideation, prototyping and rapid branding effectively; How to use design thinking to identify and achieve your business goals and create new business models; How to create revenue-boosting new products and services using design thinking; How to improve the customer/user experience to create more loyal, profitable customers. By the time you've finished reading the last chapter of **Design Thinking for Entrepreneurs and Small Businesses**, you will not just be thinking about producing new

products and services boosting customer service or developing new business opportunities you ll be doing it Best it ll show up in the top and bottom lines **Leaders' Map** John D. H. Greenway,2014-10-24 Leaders Map has been written to enable leaders to navigate towards success both in their work and other roles in life Whether you are taking the lead in business in your community or even in your family there will be fresh ideas practical wisdom and timeless principles that you can draw on At its core Leaders Map will help you to understand your journey Most of us make our plans as if we will be going forward in a straight line But life is not like that Winds blow waves rise currents pull obstacles block and opportunities beckon Leadership indeed life journeys are more like sailing in the ocean than driving along a straight road Leaders Map aims to help thinkers do and doers think As you read Leaders Map you will be provoked to think and challenged to do Leaders Map has been written to help you navigate more successfully but with the express intent that you will also enjoy the journey more
