[League of Legends Mid Lane Mastery](#) St Petr, 2016-12-02 As a Master Tier player on both EUW and EUNE servers that cares deeply about the state of League of Legends I had enough of the lack of high quality educational material about the game So about a year ago I used my experience as a real life teacher and high elo player and wrote what turned out to be the best selling ebook about improving at League of Legends on Amazon for Season 6 30 Days to Diamond By the way an improved enriched and even more detailed version for Season 7 is out and it's called 21 Days to Diamond and Beyond Ever since the book delivered on the results it promised I've received dozens of requests from players asking me to write separate very detailed books about the roles of ADC Mid lane Top lane and Jungle that would be adapted for Season 7 Due to the support I got from my dear readers

I felt motivated to roll up my sleeves and produce the best of my work as a results oriented League of Legends coach After countless hours of hard work I am proud to announce that each of the books people wanted me to write is now available to anyone that is open to learning and is willing to get to that next level as a player in their favorite role So why is League of Legends Mid Lane Mastery worth your time If you are still paying attention I am assuming you are an ambitious competitive person with a winner s mindset that is interested in acquiring all the necessary game knowledge that will help you improve massively as a Mid lane main Here is a list of the contributions that this book will make towards your current level of game knowledge You will learn what the Mid laner s role and responsibilities are and there are a lot of specific instructions on what you can do to develop each quality especially towards the end of the chapter This includes map awareness leadership shot calling and more You will learn how to model your champion pool for Mid lane yes there is a best way to do it and how to overcome the disadvantages of facing lane counters You will learn the optimal Runes and Masteries setup for each popular Mid laner You will learn the intricacies of what you can do to acquire outstanding farming skills You will learn the wave management techniques for Mid lane which will help you build a massive advantage over your opponent You will learn all you need to know about vision control which includes the best warding spots for Mid lane on both sides You will learn the various ways in which you can influence your Jungler to gank for you more often and give you the Blue Buff every time You will learn all you need to know about dominating your trades and how to trade against short ranged medium ranged and long ranged opponents You will learn multiple other principles to dominating the Mid lane refer to the table of contents You will learn the various approaches you should use to extend your advantage and carry your games to victory You will also learn all the details you need on how to play when you are behind in lane Lastly you will learn the practical steps that you can take to cultivate an unstoppable winner s attitude that will also help you have more fun with the game There also are a lot of general game knowledge golden nuggets thrown all throughout the book to help you in your journey further I know this is a big list of things and to some of you it might seem intimidating but I promise you that once you learn and apply the information in this book in your own gameplay you will transform completely as a player Are you excited Best of luck on the Summoner s Rift

Ziggs Mike Perfectevolution,2019-08-22 A few words about myself My name is Mike and I dedicate enough time to video games I started the chelation with Dota 1 and then with LOL I play LOL for over 5 years while before 5 more I played Dota and a few more games I now intend to significantly reduce the time I spend with LOL and move on to other things though before I do I thought I d share my experience and my knowledge with these guides In Each guide you will find the basic things for each champion but periodically I will take out something interesting play style that is unique and very different from the usual In These years I know almost enough about all the champions of League of Legends and all the roles My main mains are Jungle and Mid Lane Also the support because in my path to LOL there were several moments moments of joyful and moments with nerves others that I was playing with my ex girlfriend and I was trying to protect her in the end she broke

up with me and from that point began the interesting part I n My life but that is a different story What I mean is that one of my mains is support as well but it doesn't need to be the bot lane Generally protect That can be in mid lane and jungle as well

The Ultimate League of Legends Guide Daniel Ortega,2016-08-05 Greetings Summoners This is an article that aims to explain and teach players how to improve and refine their skills in League of Legends Due to the vast disparity of skill in the League of Legends community some points may not be understood by inexperienced players simply from lack of in game play time or knowledge The approach that I will take to assist in player improvement may work outside the context of League of Legends and into other MOBA style games But the examples within this guide will all be taken from within the context of League of Legends This is not a guide that is intended to teach how to play any specific champion but rather a complete overview of how to play League of Legends as a whole so if you are looking for a guide on how to play a particular champion this guide is not for you Also for the most part each section in this guide is meant to be standalone so if you do not want to read it in its entirety feel free to skip around

Hi i am a coach from season 6 In season 10 and 11 i reach a peak in Diamon II in EUW and in season 9 i decided to start to develop this ebook about LoL because i never find a good or usefull guide in all the Internet What this guide will concern Detailed wave managment How to win the lane thanks to poke trade etc How to win the game common and advanced strategy Win conditionThese and more 200 hundred pages about this awnsome game I do not like to talk so much so there are 200 hundred pages about the game and not about my life and other things that noone is interested in This will be the only guide that will help you to get out ur low elo *30 Days to Diamond* St Petr,2016-01-18

Before I tell you what 30 Days to Diamond is about let me tell you what it isn t This book is NOT the next 3 dollar booklet promising you all the tips and tricks nobody else knows Any book that makes such a claim is ridiculous misleading and a waste of time 30 Days to Diamond is 147 pages worth of specialized teaching produced by a Master Tier player on both EUW and EUNE servers It teaches all technical strategic and psychological aspects of the game from A to Z in a very unique and effective manner If there s anything I ve learned after mentoring over 60 silver and bronze players it s that anyone and I mean ANYONE has the potential to become a Diamond level player within a very short time even if still new to League In spite of all the information available online the majority of League s community still struggle to achieve their goals in Ranked Nowadays there are so many Twitch streams YouTube channels and websites dedicated to teaching the game and yet the results are just not there for the majority Improving from Silver to Gold is nice but this is so much less than what progress should look like for most Being a teacher in real life the question I got absorbed in was What prevents people from mastering the game to the level they want despite them having access to all the information they need We are talking about hundreds of thousands of players that play ranked That s a lot of people Why is it that so many folks may spend weeks and even months watching Challenger streams play League for 5 hours a day and still not improve at the rate they could This inefficiency is not due to the people playing the game or the information they learn from It all has to do with how effective learning takes place A person s ability to learn from a piece of information is enhanced only to the degree to which they can relate to it at that specific moment This is the factor that dictates how fast one improves over a period of time Here is an analogy If I were to pick two different gold 3 players for example one may assume that they are at a similar spot on the tree of game knowledge They are both gold 3 so they must be right No their spot on that tree is unique as is the combination of things they know and don t know it s just that the net result happens to be the same Depending on which leafs and branches of the tree they have if they were both to be traditionally taught the same thing in the same exact way the result wouldn t be optimal for both The key to overcoming those limitations is through teaching the game in the most relatable way by utilizing the functions of the left and right brain hemispheres SIMULTANEOUSLY through associations and other learning techniques What most people don t realize is that

their progress is not only limited by what they don't know but also the unconscious habits and pathways they've created and CONTINUE to create each time they play Improving at the fastest rate is achieved by also following a daily practice routine that revolves around repeated behaviors that create the right habits while unlearning the wrong ones Basically you transform as a player and it takes about a month So here is my attempt to change things for the better and have a positive impact on the community I wrote this book specifically for new and old players that struggle to reach Diamond It's updated and relevant to the current Season 6 Everyone that learns from it should be able to reach Diamond within 30 days of practicing no matter what their starting point is I stand behind my statement that ANY low elo player has the potential to get to Diamond in a short time when taught correctly As far as the time commitment required playing 2-4 games a day and dedicating about an hour for the method described in Chapter 9 is plenty The method is designed specifically for people with a job school other real life activities who cannot dedicate 10 hours a day to League
