criteria and then steering these groups into the most appropriate course of study In 1987 New York's suburban Rockville Centre School District faced the fact that its longstanding tracking system was resulting in unequal educational opportunities and allowing racial and socioeconomic stratification of its student population School leaders embarked on an ambitious program of reform reexamining beliefs about intelligence ability and instruction and offering all students the opportunity to study a rigorous curriculum in heterogeneous classrooms In this book authors Carol Corbett Burris and Delia T Garrity veterans of the Rockville Centre School District offer an experience based and research supported argument that detracking implemented with planning patience and persistence can do in every school district what it did in theirs raise achievement across the board and dramatically narrow the achievement gap Their main goal is a practical one to provide educational leaders with proven strategies for launching sustaining and monitoring a successful detracking reform Here you'll read Why detracking is necessary the benefits it brings and how to build support among teachers and parents How to revise curriculum to level up instruction How to establish a multiyear personalized professional development program to help teachers address new instructional needs How to best support effective teaching and learning in a heterogeneous classroom *Detracking for Excellence and Equity* outlines a comprehensive approach built on self reflection direct action vigilant supervision and a set of very clear beliefs that schools and opportunity matter that acceleration and enrichment will improve all students achievement and that all students deserve access to the best curriculum **Glasgow University Calendar** University of Glasgow,1908 *U.
