Pioneering Innovation in Early British Computers Stephen H. Kaisler, 2025-06-09 This volume of a multi volume set on  
English Computer Systems examines the major pioneering efforts in England during the period from the late 1950s until the  
late 1970s These three firms English Electric Elliott Automation and Lyons Electric disappeared through mergers as the  
computer industry consolidated through government intervention Each of these firms contributed innovative hardware and  
software architectural concepts to computing in England and around the world such as stack based machines time sharing  
and multiprogramming as well as advances in programming languages LEO I was the first business computer used to support  
business operations yet it did not arise from academia or a commercial electronics company but from a Tea Shoppe      Field
