

Fundamentals of Digital Circuits

A. Anand Kumar

The second edition of this well-received text continues to provide coherent and comprehensive coverage of digital circuits. It is designed for use by the undergraduate students pursuing courses in areas of engineering disciplines such as Electrical and Electronics, Electronics and Communication, Electronics and Instrumentation, Telecommunications, Medical Electronics, Computer Science and Engineering, and Information Technology. It is also useful as a text for MCA, M.Sc. (Electronics) and M.Sc. (Computer Science) students. Appropriate for self study, the book is useful even for AMIE and IETE students.

Written in a student-friendly style, the book provides an excellent introduction to digital concepts and basic design techniques of digital circuits. It discusses Boolean algebra concepts and their application to digital circuitry, and elaborates on both combinational and sequential circuits. The book provides numerous fully worked out, laboratory tested examples to give students a solid grounding in the related design concepts. It includes a number of review questions and classroom tested problems at the end of each chapter.

As the book requires only an elementary knowledge of electronics to understand most of the topics, it can also serve as a textbook for students of polytechnics, B.Sc. (Electronics) and B.Sc. (Computer Science).

NEW TO THIS EDITION

- Includes four new chapters—Programmable Logic Devices, Threshold Logic, Sequential Circuits-II, and Algorithmic State Machines.
- Provides short questions with answers, fill in the blanks with answers, and multiple choice questions with answers at the end of each chapter.
- Presents several new illustrations, examples and exercises.

THE AUTHOR

A. ANAND KUMAR is Director, Sasi Institute of Technology and Engineering, Tadepalligudem, West Godavari District, Andhra Pradesh (AP). Earlier from 2000 to 2006, he served as Principal, Sir C.R. Reddy College of Engineering, Eluru (AP), and as Professor, SDM College of Engineering and Technology, Dharwad, Karnataka from 1983 to 2000. He has more than 34 years of teaching experience.
