Financial Risk

Management and Derivative Instruments Michael Dempsey, 2021-05-17 Financial Risk Management and Derivative Instruments offers an introduction to the riskiness of stock markets and the application of derivative instruments in managing exposure to such risk. Structured in two parts, the first part offers an introduction to stock market and bond market risk as encountered by investors seeking investment growth. The second part of the text introduces the financial derivative instruments that provide for either a reduced exposure (hedging) or an increased exposure (speculation) to market risk. The fundamental aspects of the futures and options derivative markets and the tools of the Black-Scholes model are examined. The text sets the topics in their global context, referencing financial shocks such as Brexit and the Covid-19 pandemic. An accessible writing style is supported by pedagogical features such as key insights boxes, progressive illustrative examples, and end-of-chapter tutorials. The book is supplemented by PowerPoint slides designed to assist presentation of the text material as well as providing a coherent summary of the lectures. This textbook provides an ideal text for introductory courses to derivative instruments and financial risk management for either undergraduate masters or MBA students.

Global Mergers and Acquisitions Abdol S. Soofi, Yuqin Zhang, 2018-03-19 This book primarily deals with corporate restructuring through mergers and acquisitions. It critically examines all functions that must be performed in completing an M&A transaction. Domestic and cross-border M&As are very similar in many respects, even though differences between them also exist. The book includes discussions of international finance and multinational financial management, the topics that arise in cross-border M&A transactions. Given the increasing importance of China as the second largest economy in the world and Chinese companies growing merger and acquisition M&A activities globally, we devote the last two chapters of the book to China's outward foreign direct investment and cross-border M&A activities. Moreover, the second volume includes the case studies regarding Chinese foreign direct investment, both in Greenfield and acquisition forms, give additional insights into challenging tasks of due diligence and post-merger cultural integration that foreign investors face. The M&A literature is a fragmented field of inquiry. This book brings together important practical insights from this vast literature in a short but cohesive form that has high managerial relevance.
