explanation used pervasively in the sciences this kind of reasoning is common in everyday life Despite its widespread use inference to the best explanation is still in need of precise formulation and it remains controversial On the one hand supporters of explanationism take inference to the best explanation to be a justifying form of inference some even take all justification to be a matter of explanatory reasoning On the other hand critics object that inference to the best explanation is not a fundamental form of inference and some argue that we should be skeptical of inference to the best explanation in general This volume brings together twenty philosophers to explore various aspects of inference to the best explanation and the debates surrounding it These specially commissioned essays constitute the cutting edge of research on the role explanatory considerations play in epistemology and philosophy of science Proceedings of 10th Taiwan–Philippines Symposium on Analysis [1], 2015-01-01 This volume is a special issue which is devoted to selected papers from the 10th Taiwan Philippines Symposium on Analysis 10th TPSOA held on 31 March 3 April 2014 at the Garden Villa Hotel Kaohsiung city Taiwan and organized mainly by National University of Kaohsiung The article on page 311 has listed the bilateral participants of Taiwan and the Philippines for the 10 symposiums The symposiums have brought together mathematicians from the Philippines and Taiwan to share their results and current research activities *Lyapunov Inequalities and Applications* Ravi P.
