## **Grade11 Economics Paper 1 Final Exam 2014:**

*The effect of land inheritance on youth employment and migration decisions: Evidence from rural Ethiopia* Kosec, Katrina, Ghebru, Hosaena, Holtemeyer, Brian, Mueller, Valerie, Schmidt, Emily, 2017-03-28 In Ethiopia there are two binding forces push and pull that deserve attention when it comes to youth occupational and spatial mobility choices and the national land use and transfer policy On the one hand the fact that the land rental market in Ethiopia is supply constrained due to market and policy distortions marginalizes youth and serves as a push factor leading them to look elsewhere for a livelihood strategy On the other hand the regulatory conditions and restrictions attached to land use and inheritance rights may serve as a pull factor and force youth to be tied to the rural and or farming sector Our study thus aims to explore how youth land access both inheritance and market based affects their migration and employment decisions We explore this question in the context of rural Ethiopia using panel data from 2010 and 2014 We find that larger expected land inheritances significantly lower the likelihood of long distance permanent migration and of permanent migration to urban areas during this time Inheriting more land is also associated with a significantly higher likelihood of employment in agriculture and a lower likelihood of employment in the nonagricultural sector Conversely the decision to attend school is unaffected These results appear to be most heavily driven by males and by the older half of our youth sample We also find several mediating factors matter Land inheritance plays a much more pronounced role in predicting rural to urban permanent migration and nonagricultural sector employment in areas with less vibrant land markets and in relatively remote areas those far from major urban centers Overall the results reaffirm the notion that push factors dominate pull factors in dictating occupational and migration decisions in Ethiopia and highlight youth preferences to use migration or non agricultural employment as a last resort after exhausting other means of accessing land such as temporary land rental

### **Credit Rating Governance**

Ahmed Naciri, 2015-01-30 Credit rating agencies play an essential role in the modern financial system and are relied on by creditors and investors on the market In the recent financial crisis their power and reliability were often questioned yet a simple rating downgrade could threaten to bankrupt a whole country This book examines the governance of credit rating agencies as expressed by their ability to fairly ethically and consistently assign higher rates to issuers having lesser default risks However factors such as the drive for increased revenue and market share the inadequate business model the inadequate methodology of assessing risk opacity and inadequate internal monitoring have all been identified as critical governance failures for credit agencies This book explores these issues and proposes some potential solutions and improvements This will be of interest to researchers and advanced students of corporate finance financial economics risk management investment management and banking

### **Economics of Means-Tested Transfer Programs in the United States, Volume II**

Robert A. Moffitt, 2016-11-18 Few government programs in the United States are as controversial as those designed to help the poor From tax credits to medical assistance the size and structure of the American safety net is

an issue of constant debate These two volumes update the earlier Means Tested Transfer Programs in the United States with a discussion of the many changes in means tested government programs and the results of new research over the past decade While some programs that experienced falling outlays in the years prior to the previous volume have remained at low levels of expenditure many others have grown including Medicaid the Earned Income Tax Credit the Supplemental Nutrition Assistance Program and subsidized housing programs For each program the contributors describe its origins and goals summarize its history and current rules and discuss recipients characteristics and the types of benefits they receive This is an invaluable reference for researchers and policy makers that features detailed analyses of many of the most important transfer programs in the United States

**Burnt by Democracy** Jacqueline Kennelly, 2023-11-30 Burnt by Democracy traces the political ascendance of neoliberalism and its effects on youth The book explores democracy and citizenship as described in interviews with over forty young people ages 16 to 30 who have either experienced homelessness or identify as an activist living in five liberal democracies Canada Australia New Zealand the United States and the United Kingdom Highlighting significant cuts to social and affordable housing astronomical increases in the costs of higher education and the transformation and erosion of state benefits systems Jacqueline Kennelly argues that democracy's decline is not occurring because young people are apathetic or focused on informal politics or unaware of their civic duties Rather it is because of collective misunderstanding about how democracy is actually structured how individuals learn to participate and how growing wealth inequality has undermined the capacity of those at the bottom to meaningfully advocate for changes that might improve their conditions Against a vivid and often heart breaking backdrop of stories from young people struggling to survive and thrive under conditions of ever expanding state retrenchment and inequality Burnt by Democracy makes a timely and impassioned plea for protecting and strengthening democracy by truly levelling the playing field for all

*Securitization Economics* Laurent Gauthier, 2020-07-31 Securitization is widely used around the world and structured products are one of the largest fixed income asset classes This textbook guides readers through the complexity of this financial technique and first introduces them to the mechanics of securitization and makes the key concepts techniques and logic of this field accessible for teachers and students alike Further the textbook presents a systematic economic analysis of securitization asking and answering why it exists how it works why it has failed how complex structures operate why they are so complex and many other related questions The author offers a unique approach and combines detailed discussions of theoretical economics models with advanced empirical research in order to confront them to the perspective of an experienced practitioner in this market

**Health Economics from Theory to Practice** Simon Eckermann, 2017-03-20 This book provides a robust set of health economic principles and methods to inform societal decisions in relation to research reimbursement and regulation pricing and monitoring of performance in practice We provide a theoretical and practical framework that navigates to avoid common biases and suboptimal outcomes observed in recent and current practice of health economic analysis as opposed to claiming to be comprehensive in covering all methods Our aim is to facilitate efficient health system decision making processes in research reimbursement and regulation which promote constrained optimisation of community outcomes from a societal perspective given resource constraints available technology and processes of technology assessment Importantly this includes identifying an efficient process to maximize the potential that arises from research and pricing in relation to existing technology under uncertainty given current evidence and associated opportunity costs of investment Principles and methods are identified and illustrated across health promotion prevention and palliative

care settings as well as treatment settings Health policy implications are also highlighted

**Young Adult Development at the School-To-Work Transition** E. Anne Marshall, Jennifer E. Symonds, Jennifer Symonds, 2021 Written by internationally renowned scholars in developmental psychology applied psychology counseling and sociology the chapters in this book highlight the trends issues and actions that researchers academics practitioners and policy makers need to consider in order to effectively support young adults transition to work pathways

**The Inner Level** Richard Wilkinson, Kate Pickett, 2018-06-07 Why is the incidence of mental illness in the UK twice that in Germany Why are Americans three times more likely than the Dutch to develop gambling problems Why is child well being so much worse in New Zealand than Japan As this groundbreaking study demonstrates the answer to all these hinges on inequality In The Spirit Level Richard Wilkinson and Kate Pickett put inequality at the centre of public debate by showing conclusively that less equal societies fare worse than more equal ones across everything from education to life expectancy The Inner Level now explains how inequality affects us individually how it alters how we think feel and behave It sets out the overwhelming evidence that material inequalities have powerful psychological effects when the gap between rich and poor increases so does the tendency to define and value ourselves and others in terms of superiority and inferiority A deep well of data and analysis is drawn upon to empirically show for example that low social status is associated with elevated levels of stress and how rates of anxiety and depression are intimately related to the inequality which makes that status paramount Wilkinson and Pickett describe how these responses to hierarchies evolved and why the impacts of inequality on us are so severe In doing so they challenge the conception that humans are innately competitive and self interested They undermine too the idea that inequality is the product of natural differences in individual ability This book sheds new light on many of the most urgent problems facing societies today but it is not just an index of our ills It demonstrates that societies based on fundamental equalities sharing and reciprocity generate much higher levels of well being and lays out the path towards them

**Reconstructing the Middle East** Abdulwahab Alkebsi, Nathan J Brown, Charlotta Sparre, 2017-02-24 It is clear by now that the label Arab Spring has proven too simplistic to describe the uprisings that upended the political order of the Arab world in late 2010 Brutal crackdowns and civil conflict in Syria Libya and Yemen dashed the hopes that peaceful democratic revolutions would sweep the region In other countries the departure of authoritarian leaders led to many false starts without producing democratic conclusions Societies that had appeared united in opposition suddenly seemed fractious Youth were once again banished to the political margins Reconstructing the Middle East examines the changes that happened within the region from 2010 and the long term challenges and opportunities they present Featuring the work of authors with a diversity of perspectives most of whom hail from the region it addresses key issues of political economic and societal changes the role of young people and of the international community In addition the book deals with the questions of both political and economic reform and the intertwined nature of the two Political reform that allows greater participation will fail to quell frustration if Arabs continue

to feel that their job prospects are bleak Similarly Arabs will not accept economic reform that restores growth but continues to fence off the political sphere This book offers a unique perspective on the uprisings by focusing on specific issue areas where change is needed and offering a roadmap for the long road towards state building and new social contracts based on political inclusion respect for pluralism and sustained economic growth As such it will be a valuable resource for students and scholars of Middle East Politics as well as those with an interest in the Arab Spring

**World Development Report 2018** World Bank Group, 2017-10-16 Every year the World Bank's World Development Report WDR features a topic of central importance to global development The 2018 WDR LEARNING to Realize Education's Promise is the first ever devoted entirely to education And the time is right education has long been critical to human welfare but it is even more so in a time of rapid economic and social change The best way to equip children and youth for the future is to make their learning the center of all efforts to promote education The 2018 WDR explores four main themes First education's promise education is a powerful instrument for eradicating poverty and promoting shared prosperity but fulfilling its potential requires better policies both within and outside the education system Second the need to shine a light on learning despite gains in access to education recent learning assessments reveal that many young people around the world especially those who are poor or marginalized are leaving school unequipped with even the foundational skills they need for life At the same time internationally comparable learning assessments show that skills in many middle income countries lag far behind what those countries aspire to And too often these shortcomings are hidden so as a first step to tackling this learning crisis it is essential to shine a light on it by assessing student learning better Third how to make schools work for all learners research on areas such as brain science pedagogical innovations and school management has identified interventions that promote learning by ensuring that learners are prepared teachers are both skilled and motivated and other inputs support the teacher learner relationship Fourth how to make systems work for learning achieving learning throughout an education system requires more than just scaling up effective interventions Countries must also overcome technical and political barriers by deploying salient metrics for mobilizing actors and tracking progress building coalitions for learning and taking an adaptive approach to reform

**The Tyranny of Metrics** Jerry Z. Muller, 2019-04-30 Today organizations of all kinds are ruled by the belief that the path to success is quantifying human performance publicizing the results and dividing up the rewards based on the numbers But in our zeal to instill the evaluation process with scientific rigor we've gone from measuring performance to fixating on measuring itself The result is a tyranny of metrics that threatens the quality of our lives and most important institutions In this timely and powerful book Jerry Muller uncovers the damage our obsession with metrics is causing and shows how we can begin to fix the problem Filled with examples from education medicine business and finance government the police and military and philanthropy and foreign aid this brief and accessible book explains why the seemingly irresistible pressure to quantify performance distorts and distracts whether by encouraging gaming the stats or teaching to the test That

s because what can and does get measured is not always worth measuring may not be what we really want to know and may draw effort away from the things we care about Along the way we learn why paying for measured performance doesn't work why surgical scorecards may increase deaths and much more But metrics can be good when used as a complement to rather than a replacement for judgment based on personal experience and Muller also gives examples of when metrics have been beneficial Complete with a checklist of when and how to use metrics The Tyranny of Metrics is an essential corrective to a rarely questioned trend that increasingly affects us all *Governance and sector outcomes* Anna Wetterberg, Derick W. Brinkerhoff, 2018-09-27 A critical issue in international development is how donor funded programs can support sustainable and long lasting changes in assisted countries Among the factors associated with sustainability is improved governance However many donor funded initiatives are focused on achieving results in specific sectors such as health education and agriculture How can how governance interventions contribute to achieving sector specific results This brief explores this question and discusses how international development practice has incorporated recognition of the links between governance and sector outcomes The brief develops a stylized continuum of how governance elements relate to sector interventions and contribute to expected outcomes We discuss factors that either impede or impel governance integration and close with some observations regarding prospects for integrated programming The audience for the brief is the international development policy and practitioner communities and secondarily academics with an interest in the topic Key take aways include 1 there is ample evidence of positive contributions from improved governance to sector specific outcomes but few guideposts exist for practical and effective governance integration 2 barriers to integration include urgent sector priorities that overshadow governance concerns requirements to demonstrate progress towards ambitious sector targets and complex choices related to measurement and 3 sustainability and self reliance are major drivers for integration and are facilitated by the flexibility and adaptation that governance integration enables **The Politics of Education in**

**Developing Countries** Samuel Hickey, Naomi Hossain, 2019 This book focuses on how politics shapes the capacity and commitment of elites to tackle the learning crisis in six developing countries It deploys a new conceptual framework to show how the type of political settlement shapes the level of elite commitment and state capacity to improving learning outcomes

OECD Reviews of Migrant Education The Resilience of Students with an Immigrant Background Factors that Shape Well-being OECD, 2018-03-19 The Resilience of Students with an Immigrant Background Factors that Shape Well being reveals some of the difficulties students with an immigrant background encounter and where they receive the support they need
