Resources in Education ,1997      Attracting Science and Mathematics Ph.D.s to Secondary School Education Center for Education,Office of Scientific and Engineering Personnel Advisory Committee,Committee on Attracting Science and Mathematics Ph.D.s to Secondary School Teaching,2000-09-16 The National Research Council conducted a study to identify a set of incentives that state governments and local school districts can use to attract Ph D scientists and mathematicians to secondary school teaching positions This project investigated the career ambitions of Ph D s in the physical and life sciences through focus groups and a national survey to determine the kinds of work conditions and compensation packages that would induce them to take positions teaching physics chemistry biology and various electives in public high schools or positions developing secondary school science and mathematics curricula The study conducted interviews with Ph D s who are already teaching in

secondary schools to ascertain information from their experiences with local school district administrators to assess what they are realistically willing to offer Ph D scientists to attract them and with higher education administrators to explore programmatic changes they would need to institute to provide Ph D s with skills tailored to secondary school teaching These investigations led to this report which describes the incentives local school districts could use in establishing pilot programs in this area     *English Mechanic and World of Science* ,1922     Current Index to Journals in Education ,1999     *The Publishers' Trade List Annual* ,1905     **The Education Gazette of the Province of the Cape of Good Hope** ,1973
