

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

The Political Economy of the Small Firm Charlie Dannreuther,Lew Perren,2013 For many small firms are everyday realities of the economy and visible in every high street and industrial estate Their existence and importance is unquestionable Such beliefs are understandable but the authors of this new book would suggest they are misguided The Political Economy of the Small Firm challenges the assumptions regarding small firms that pervade society and political representation Small firms are not organised into a homogenous sector that has a clear constituency or political influence In fact the small firm is shown to be an inconstant political construct that is discursively ethereal and vulnerable to political exploitation Fusing theories from political science management and linguistics Dannreuther and Perren assert that the idea of the small firm is an important discursive resource used by political actors to legitimise their actions influence their citizens and help sustain regimes of accumulation On top of this the authors also empirically test their claims against 200 years of UK parliamentary debate from the Industrial Revolution to the Blair government The political construction of the small firm is shown not only to provide rhetorical mechanisms to maintain periods of capitalist accumulation but also to increase the relative autonomy of the state and to centralise power to elite politicians For a period of 150 years up to the 1970s the small firm was an unexplored presence below the political radar and resonant with poor working standards and extreme forms of

competition During the so called Fordist period from the 1930s the small firm was seen as the dirty out dated contrast to the clean modern future represented by mass production and corporations The perceived failure of Fordism led to the invention of the small firm and its presentation as an ideal political construct By fabricating assertions of what small firms are and what they want frequently out of conjecture the authors of this book show how political elites have been able to advocate radical reformist agendas since the 1970s in the name of a phantom constituency NOAA Technical Memorandum EDS.
