Seeding Buddhism with Multiculturalism D. Mitra Barua, 2019-05-13 Immigrants often face considerable challenges when it comes to preserving their cultural and religious teachings D Mitra Barua argues that the Sri Lankan Buddhist community in Toronto has maintained its coherence and integrity not despite but because of the need for cultural adaptations Drawing on survey data over fifty in depth interviews with temple monks educators parents and children and fieldwork conducted in Toronto and Colombo Sri Lanka Seeding Buddhism with Multiculturalism examines how a religious tradition is transmitted from one generation to the next in a new cultural setting and what happens during that process of transmission Barua demonstrates that Buddhists have passed on Buddhist beliefs attitudes and practices to their Canadian born youth who in turn have constructed their own distinct Buddhist identity influenced by the individualistic egalitarian and secular cultural ambience in Toronto Through creative fieldwork and translocal analysis taking into account migrants geographical cultural and familial ties to multiple locales this book further explains that pre migration experiences often shape and determine the success or failure of intergenerational transmission An ethnographic religious study with an uncommon depth of perspective Seeding Buddhism with Multiculturalism shows that first and second generation Sri Lankan Buddhists in Toronto are successfully practising Theravada Buddhism within a Canadian context

Globalisation, Employment and Education in Sri Lanka Angela W. Little, Siri T. Hettige, 2014-05-23 Since the late 1970s Sri Lanka has undergone a socio economic transformation from protectionism towards economic liberalisation and increasing integration into the world economy Through a systematic comparison of these periods of economic change 1956 1977 and 1977 to the present Angela W Little and Siri T Hettige examine the impact of this transformation on education youth employment and equality of opportunity in Sri Lanka The book charts Sri Lanka's shift from a predominantly agricultural economy to one dominated by services and manufacturing a reduction in unemployment rising educational and occupational levels expectations and achievements and a reduction in poverty In turn it reveals a growing role for the private sector and foreign interests in post secondary education and a modest growth in private education at the primary and secondary levels as well as widening social disparities in access to qualifications training and skills The Sri Lankan experience of and engagement with globalisation has been tempered by a long running ethnic conflict that hindered economic and social development and diverted considerable public funds into defence and war Now that the war is won the challenge is how to invest in human resource development and the fulfilment of the expectations of youth from all ethnic and social groups This challenge requires serious policy analysis the generation of more state revenues the reallocation of existing public resources and a political commitment to the winning of a sustainable peace and stability This book makes an important contribution to the broader international literature on the implications of globalisation for education policy and practice and to the interaction of exogenous and endogenous forces for educational change It deals with the tension between the high social demand for

education and the growing demand for specialised skills in a changing economy As such it has a wide interdisciplinary appeal across education policy and politics Asian education South Asian society youth policy sociology of education political economy of social change and globalisation **Tribune** ,1982-12 **Development, Education and Learning in Sri Lanka** Angela W. Little,2024-06-13 Sri Lanka's early achievements in education and literacy became well known among the international development community in the middle of the last century and were often used to benchmark progress elsewhere Development Education and Learning in Sri Lanka presents an illuminating narrative of changing education fortunes and inequalities based on half a century of research This research journey was undertaken in collaboration with Sri Lankan researchers island wide in myriad communities schools classrooms and education offices through conversations with countless parents teachers students community members trade union officers politicians and members of local national and international development agencies as well as through extensive documentary analysis The book delineates the distinctive and changing features of the Sri Lankan education system through comparisons with systems elsewhere through an understanding of national political economic and social conditions crises and upheavals through changes in education policy and through shifting patterns of opportunity among diverse social groups These analyses are framed by themes in the international development discourse ranging from modernisation to basic needs to globalisation and sustainable development some of which themes have been influenced by the Sri Lankan story The book's overriding messages are the need to understand education and development in a country's own terms and to place learning at the heart of education policy situating it within broader conceptions of the purpose values and means of development Praise for Development Education and Learning in Sri Lanka Through rigorous and comprehensive research and a blend of local and global perspectives this book offers invaluable insights for academics and policymakers alike Tara de Mel Director Bandaranaike Academy for Leadership and Public Policy and former Secretary Sri Lanka Ministry of Education Reflecting on a career long engagement with education and development Angela Little brilliantly co-locates the personal political and the theoretical A privilege to read Simon McGrath University of Glasgow This passionate engagement with education reform and development offers very instructive lessons for academics and policymakers in Sri Lanka and beyond Siri T Hettige University of Colombo Fifty years of personal experience in Sri Lanka from many vantage points A focus on education and society rather than education alone And a concern to understand rather than prescribe This book has no competitors Mick Moore Institute of Development Studies Sussex Sri Lanka, the Ethnic Conflict ,1984 Adhyāpana Adhyakṣa Janarālgē pālana vārtāva Ceylon. Niyōjita Mantrī Mandalaya,1965 *Ceylon Medical Journal* ,2005 Handbook of Arabic Literacy Elinor Saiegh-Haddad,R. Malatesha Joshi,2014-04-03 This book provides a synopsis of recently published empirical research into the acquisition of reading and writing in Arabic Its particular focus is on the interplay between the linguistic and

orthographic structure of Arabic and the development of reading and writing spelling In addition the book addresses the socio cultural political and educational milieu in which Arabic literacy is embedded It enables readers to appreciate both the implications of empirical research to literacy enhancement and the challenges and limitations to the applicability of such insights in the Arabic language and literacy context The book will advance the understanding of the full context of literacy acquisition in Arabic with the very many factors religious historical linguistic etc that interact and will hence contribute to weakening the anglocentricity that dominates discussions of this topic
