Neal S. Scheindlin

Introduction To Judaism Washington Dc Area Text Book List:

The Jewish Family Ethics Textbook Neal S. Scheindlin, 2021-10 2021 National Jewish Book Award Finalist for Contemporary Jewish Life and Practice Judaism offers us unique and often divergent insights into contemporary moral quandaries How can we use social media without hurting others Should people become parents through cloning Should doctors help us die The first ethics book to address social media and technology ethics through a Jewish lens along with teaching the additional skills of analyzing classical Jewish texts The Jewish Family Ethics Textbook guides teachers and students of all ages in mining classical and modern Jewish texts to inform ethical decision making Both sophisticated and accessible the book tackles challenges in parent child relationships personal and academic integrity social media sexual intimacy conception abortion and end of life Case studies largely drawn from real life concretize the dilemmas Multifaceted texts from tradition translated from Hebrew and Aramaic to modernity build on one another to shed light on the deliberations Questions for inquiry commentary and a summation of the texts implications for the case studies deepen and open up the dialogue In keeping with the tradition of *ma loket* preserving multiple points of view We need not accept any of our forebears ideas uncritically Rabbi Neal Scheindlin explains The texts provide opportunities to discover ideas that help us think through ethical dilemmas while leaving room for us to discuss and draw our own conclusions

Medicine as a Scholarly Field: An Introduction O.S. Miettinen, 2015-08-03 This book exposes and fills a notable void in the educational content generally covered in modern schools of medicine It provides an introduction to the field at large in terms of content that is relevant for each of the specialties and subspecialties of medicine and to this end it addresses the modern counterpart of the Hippocratic philosophy that was at the root of the genesis of modern medicine The much needed but still missing introductory content for the interdisciplinary medical common provided in this book addresses mainly the most elementary concepts and principles of medicine Those concepts flow hierarchically from the essence of health and ill health illness for one and that of medicine for another both of these critically formulated and those principles are dictates of logic and ethics both specific to medicine While a modern physician is expected to be competent as a scholar in his/her particular discipline of medicine study of this book is essential for the development of that competence for learning for example to make a tenable distinction between scientific medicine and medical science and between knowledge based medicine scientific and other and its opinion based substitutes evidence based and other To me it is astonishing and to medicine actually shameful that it has taken up to year 2015 before there is a work in which the essence of medicine is described and discussed J Steurer University of Zurich In this book Miettinen beautifully elucidates the concepts and principles of knowledge based diagnosis and prognosis within medicine Now after six decades of keen observation and study and critical reflection on medicine and medical research Miettinen in this book shares the fundamental understandings he has reached T J VanderWeele Harvard University The aim of this book is admirable The composition of the book from the key concepts to logical and ethical principles is very clear and

systematic I am convinced that this kind of book is needed I Niiniluoto University of Helsinki

Reader's Guide to Judaism Michael Terry, 2013-12-02 The Reader's Guide to Judaism is a survey of English language translations of the most important primary texts in the Jewish tradition The field is assessed in some 470 essays discussing individuals Martin Buber Gluckel of Hameln literature Genesis Ladino Literature thought and beliefs Holiness Bioethics practice Dietary Laws Passover history Venice Baghdadi Jews of India and arts and material culture Synagogue Architecture Costume The emphasis is on Judaism rather than on Jewish studies more broadly

The Biblical Canon Lists from Early Christianity Edmon L. Gallagher, John D. Meade, 2017-10-26 The Bible took shape over the course of centuries and today Christian groups continue to disagree over details of its contents The differences among these groups typically involve the Old Testament as they mostly accept the same 27 book New Testament An essential avenue for understanding the development of the Bible are the many early lists of canonical books drawn up by Christians and occasionally Jews Despite the importance of these early lists of books they have remained relatively inaccessible This comprehensive volume redresses this unfortunate situation by presenting the early Christian canon lists all together in a single volume The canon lists in most cases unambiguously report what the compilers of the lists considered to belong to the biblical canon For this reason they bear an undeniable importance in the history of the Bible The Biblical Canon Lists from Early Christianity provides an accessible presentation of these early canon lists With a focus on the first four centuries the volume supplies the full text of the canon lists in English translation alongside the original text usually Greek or Latin occasionally Hebrew or Syriac Edmon L. Gallagher and John D. Meade orient readers to each list with brief introductions and helpful notes and they point readers to the most significant scholarly discussions The book begins with a substantial overview of the history of the biblical canon and an entire chapter is devoted to the evidence of biblical manuscripts from the first millennium This authoritative work is an indispensable guide for students and scholars of biblical studies and church history

JPS: the Americanization of Jewish Culture, 1888-1988 Jonathan D. Sarna, 2021-10 Published to mark the 100th anniversary of The Jewish Publication Society Jonathan Sarna's engaging blend of anecdote and analysis presents the personalities and the controversies the struggles and the achievements behind a century of publishing by the oldest English language publisher of Jewish books in the world Includes black and white photographs and extensive listings of JPS officers and editors governing boards and authors translators and illustrators up to 1988

Who's who in America John W. Leonard, Albert Nelson Marquis, 1928 Vols 28-30 accompanied by separately published parts with title Indices and necrology

Postwar History Education in Japan and the Germanys Julian Dierkes, 2010-12-14 How did East and West Germany and Japan reconstitute national identity after World War II Did all three experience parallel reactions to national trauma and reconstruction History education shaped how these nations reconceived their national identities Because the content of history education was controlled by different actors history education materials framed national identity in very different ways In Japan where the curriculum was controlled by bureaucrats bent

on maintaining their purported neutrality materials focused on the empirical building blocks of history who where what at the expense of discussions of historical responsibility In East Germany where party cadres controlled the curriculum students were taught that World War II was a capitalist aberration In West Germany where teachers controlled the curriculum students were taught the lessons of shame and then regeneration after historians turned away from grand national narratives This book shows that constructions of national identity are not easily malleable on the basis of moral and political concerns only but that they are subject to institutional constraints and opportunities In an age when post conflict reconstruction and reconciliation has become a major focus of international policies the analysis offers important implications for the parallel revision of portrayals of national history and the institutional reconstruction of policy making regimes **The Dial** Francis Fisher Browne, Waldo Ralph Browne, Scofield Thayer, 1900 **The National Union Catalog, Pre-1956 Imprints**, 1968

Society for Old Testament Study Booklist 2003 George J. Brooke, 2003-03-06 The Book List provides short reviews of up to 500 books a year It includes publications not only on the Old Testament directly but also on many related areas including archaeology epigraphy Hebrew and related Semitic languages especially Northwest Semitic relevant ancient Near Eastern history and literature the Hellenistic world early Judaism and social anthropology The main value of the Book List is its comprehensiveness and its immediacy in that it is usually among the first periodicals to review a book
