Carl Sauer on Culture and Landscape William M. Denevan, Kent Mathewson, 2009-05-01 Perhaps one of the most distinctive and studied geographers of the twentieth century Carl O Sauer 1889 1975 had influence that extends well beyond the confines of any one discipline With a focus on historical and cultural geography Sauer's essays have garnered praise from poets natural historians and social scientists alike who continue to explore Sauer's work In **Carl Sauer on Culture and Landscape** editors William M Denevan and Kent Mathewson have compiled thirty seven of Sauer's original works including rare early writings articles in now largely inaccessible publications and transcriptions of key oral presentations that remain little known A student of the relationships between land and life people and places Sauer helped establish landscape studies in cultural geography and paved the way for paradigmatic shifts in the scholarly assessment of Native American history By strongly advocating a land ethic a responsible stewardship of the sustaining earth for his own and for future generations Carl Sauer supplied an esthetic rationale and a historical perspective to the environmental movement The volume opens with two extended essays on Sauer's critics and his works Essays by prominent geographers

and other authorities on Sauer introduce each section of the book adding a contemporary element to the presentation and interpretation of Sauer's life and scholarship in areas such as soil conservation man in nature and cultivated plants A complete bibliography of his publications and an extensive compilation of commentaries on his life and work make this an indispensable reference Carl Sauer on Culture and Landscape sheds new light on Sauer's contributions to the history of geographic thought sustainable land use and the importance of biological and cultural diversity all of which remain key issues today *Routledge Library Editions: Historiography* Various, 2021-06-23 The greatest problem in historical scholarship theoretically and practically is the relation between historians and their subject matter The past is gone and historians can only study its remnants On what basis do scholars select certain facts from the mass of data left from the past How do they explain the interrelationship of the facts they select What criteria do they use to evaluate their subject The 35 volumes in this set originally published between 1926 and 1990 discuss and answer these essential questions faced by historians The development of historical understanding during the 18th and 19th centuries was one of the most striking features of Western culture Both historiography and historical thinking advanced as never before The historical movement of the 19th century was perhaps second only to the scientific revolution of the seventeenth century in transforming Western thought One consequence was extensive organisation and professionalization of research which the volumes in this set reflect **Spon's External Works and Landscape Price Book 2018** AECOM AECOM, 2017-09-22 This year the rates in the book include contractor's overheads and profit making the book easier for design and planning professionals Now in its 37th edition Spon's External Works and Landscape Price Book 2018 offers the only comprehensive source of information for detailed external works and landscape costs It covers all the items to be found in hard and soft landscape contracts and forms an indispensable reference book for quantity surveyors landscape architects contractors and local authority managers essential for compiling estimates specifications bills of quantities and works schedules no matter what the size of the project being undertaken Use the access code inside the front cover of the book to get set up with a VitalSource ebook of this 2018 edition This versatile and powerful online data viewing package is available for use until the end of December 2018 This NRM edition includes the following new items BEGA external lighting Build ups for Wienerberger Dutch paving bricks SUDS paving Alternative french drainage systems Pop up power Porcelain paving Portland stone paving Portland stone walls and cladding And new Cost Models for commercial housing and civic environments All the standard features that you expect from SPON'S EXTERNAL WORKS AND LANDSCAPE PRICE BOOK remain material and measured work prices covering contract items from preliminaries and site clearance and encompassing the core external works activities with full breakdowns into labour materials and other components detailed guidance on wage rates landscape consultants fee scales an extensive Approximate Estimates section for rapid spot estimating updates free of charge two or three times a year see inside for registration details Updates are available online at www.pricebooks.co.uk **Routledge Library Editions: Rural History**
