Passport to Algebra and Geometry Holt McDougal, Ron Larson, 2004 **The Practice of Algebraic Curves** David Eisenbud, Joe Harris, 2024-11-09 This textbook provides readers with a working knowledge of the modern theory of complex projective algebraic curves Also known as compact Riemann surfaces such curves shaped the development of algebraic geometry itself making this theory essential background for anyone working in or using this discipline Examples underpin the presentation throughout illustrating techniques that range across classical geometric theory modern commutative algebra and moduli theory The book begins with two chapters covering basic ideas including maps to projective space invertible sheaves and the Riemann Roch theorem Subsequent chapters alternate between a detailed study of curves up to genus six and more advanced topics such as Jacobians Hilbert schemes moduli spaces of curves Severi varieties dualizing sheaves and linkage of curves in 3 space Three chapters treat the refinements of the Brill Noether theorem including applications and a complete proof of the basic result Two chapters on free resolutions rational normal scrolls and canonical curves build context for Green's conjecture The book culminates in a study of Hilbert schemes of curves through examples A historical appendix by Jeremy Gray captures the early development of the theory of algebraic curves Exercises illustrations and open problems accompany the text throughout The Practice of Algebraic Curves offers a masterclass in theory that has become essential in areas ranging from algebraic geometry itself to mathematical physics and other applications Suitable for students and researchers alike the text bridges the gap from a first course in algebraic geometry to advanced literature and active research **Glencoe Mathematics** William Collins, 1999 **Algebra 2** McDougal Littell Incorporated, Ron Larson, 2004

Algebra 1 McDougal Littell Incorporated, Ron Larson, 2003 **Mathematical Modelling in Education Research and Practice** Gloria Ann Stillman, Werner Blum, Maria Salett Biembengut, 2015-07-20 In this volume cultural social and cognitive influences on the research and teaching of mathematical modelling are explored from a variety of theoretical and practical perspectives The authors of the current volume are all members of the International Community of Teachers of Mathematical Modelling and Applications the peak research body in this field A distinctive feature of this volume is the high number of authors from South American countries These authors bring quite a different perspective to modelling than has been showcased in previous books in this series in particular from a cultural point of view As well as recent international research there is a strong emphasis on pedagogical issues including those associated with technology and assessment in the teaching and learning of modelling Applications at various levels of education are exemplified The contributions reflect common issues shared globally and represent emergent or on going challenges **El-Hi Textbooks & Serials in Print, 2000**, 2000

Rendering Techniques '99 Dani Lischinski, Greg W. Larson, 2012-12-06 This book contains the proceedings of the 10th Eurographics Workshop on Rendering which took place from the 21st to the 23rd of June 1999 in Granada Spain Originally an outgrowth of the annual Eurographics meeting the workshop was organized by a dedicated group of researchers who felt there was insufficient opportunity at Eurographics and Siggraph to exchange ideas specifically on rendering Over the past 9 years the workshop has become renowned as an international watershed for top quality work in this field attracting between 50 and 100 attendees each year to share their latest research This year we received a total of 63 submissions Each paper was carefully reviewed by two of the 25 international programme committee members as well as two external reviewers selected by the co chairs from a pool of 71 individuals The programme committee and external reviewers are listed following the contents pages In this new review process all submissions and reviews were handled electronically with the exception of videos submitted with a few of the papers This streamlined the review process considerably while reducing the costs and confusion associated with courier delivery of hundreds of papers
