Jon M. Quigley, Roopa Shenoy, 2016-09-01 Project Management for Automotive Engineers: A Field Guide was developed to help automotive engineers be better project managers as automotive projects involve suppliers dispersed across the globe and can often span multiple years. Project scope change is common and so too are the budget constraints and tight deadlines. This book is an excellent guide on how to manage continuous change. As project management in this particular industry is intrinsically linked to product development, the chapters focus on the project management aspects that are significant during the various stages of a product development cycle, including business case evaluation, process development, cycle test phases, production ramp up at the plant and at the Tier 1 supplier level, and how to work within a matrix structured organization. The principles of value projects and how to revive failing projects are discussed. Together with demonstrating metrics and the techniques to ensure the project remains on schedule and on budget, it is a must-have for professionals getting started on this activity. The authors, Jon M. Quigley and Roopa Jha Shenoy, are certified project managers and have 33 years of combined experience of doing so, particularly in the automotive industry QS-9000 Registration and Implementation

Naroola, 1996-09-04 Focuses on the improvement of quality, customer satisfaction and profitability. The text provides a proven step-by-step method for achieving QS 9000 registration economically and efficiently. TAP (Plan, Do, Study, Act) PDSA (Train, Analyze and Plan, Plan, Do, Study, Act). It delineates successful registration efforts conducted by the author using the TAP PDSA approach **Handbook of Research on Developments and Trends in Industrial and Materials Engineering**
