

Final Exam Study Guide

Disclaimer: The following is not intended to be an exhaustive review of everything you should master to do well on the final exam. Rather, it is meant to supplement your working out of the homework problems and practice exam questions by focusing on terminology and theoretical concepts that might otherwise fall through the cracks. I also am not inside the instructor's mind and cannot say how close the exam questions will be to this material. These are simply the concepts that jump out to me based on my past experience teaching the class that I thought important enough to highlight.

Natural Forms of Defense

Against Biological, Chemical and Nuclear Threats John Brighton, 2007-02-26 The events that took place on September 11th caused Dr John Brighton a naturopathic health consultant to ask himself questions about what role natural forms of healing might have in a scenario involving weapons of mass destruction WMD As he examined the issues and the nature of the threat he felt assured that a naturalistic approach could make a significant contribution in conjunction with that offered by conventional medicine Moreover he felt that to use both would provide a more powerful deterrent than if either were used alone The naturalistic approach would augment the use of drugs by adding 5 extra lines of defense aimed at supporting and strengthening the immune system to deal with such a dire event These lines include A psychological dimension A social dimension A preventative dimension An environmental dimension A specific dimension The whole idea of this holistic strategy is to employ prevention and immune enhancing factors in order to reduce the level of crisis to begin with As a result the dependency on antibiotics there are no effective antivirals and other valuable medical resources can be considerably reduced and most importantly preserved for when they would be needed most Another benefit of integrating these two systems would add what Dr Brighton calls synergistic complexity as a way to reduce the current crisis of germ resistance to many most potent antibiotics and to provide a holistic approach to all forms of WMD The book clarifies the scope of the threat we face by examining The variety of biological chemical and nuclear threats The factors involved in the creation of WMD The uncanny capacity of microbes to develop resistance to our medications The threat of bioengineering and the creation of superbugs How synergistic complexity could provide a possible solution A chapter is dedicated to focusing on the specific nature and challenges posed by each biological chemical and nuclear agent This includes A description of the agent How it causes harm How it might be used as a weapon and the possibility of it being used How it is detected diagnostically and in the field The conventional method of care and treatment The suggested natural forms of defense including herbs vitamins minerals and other natural substances and healing therapies The book ends with a forward looking chapter on emerging technologies that have promise of increasing our level of defense against WMD A bibliography and a full section on resources are available

Faces of Freedom Summer Bobs M. Tusa, Herbert Randall, 2022-09-20 Affirms validates and reiterates the yearning for an orderly peaceful and just world The old adage One picture is worth ten thousand words is definitely true for Faces of Freedom Summer There are simply not enough words to describe the period in our history that is

recorded by the pictures in this book As this book affirms the resurgence of overt activities by hate groups both the old traditional ones e g the Ku Klux Klan and the new ones e g the Skin Heads however much the hard work and sacrifices of the modern civil rights movement humanized American society much still remains to be done The modern civil rights movement associated with the 1960s was not in vain yet it did not eradicate from our society the evils of racism and sexism While we activists made the United States more of an open society than it has ever been in its history our vision and desire for the beloved community did not reach into all sectors of American society Freedom it has been said is a constant struggle a work of eternal vigilance Faces of Freedom Summer brings to life that there was such a time and there were such people and if such a people were once then they are still among us Yet they may only become aware of themselves when they are confronted with visible evidence such as the evidence contained in the pictures of Herbert Randall *Reports of Cases Decided in the Supreme Court of the State of Oregon* Oregon. Supreme Court, Charles Byron Bellinger, Thomas Benton Odeneal, Julius Augustus Stratton, William Henry Holmes, William Wallace Thayer, Reuben S.
