Leaders of the Pack Julie Kumble, Donald F. Smith, 2017-03-15 Veterinary medicine has undergone sweeping changes in the last few decades Women now account for 55 percent of the active

veterinarians in the field and nearly 80 percent of veterinary students are women. However, average salaries have dropped as this shift has occurred and even with women in the vast majority, only 25 percent of leadership roles are held by women. These trends point to gender-based inequality that veterinary medicine, a profession that tilts so heavily toward women, is struggling to address. How will the profession respond? What will this mean for our students and schools? What will it mean for our pets entrusted to veterinarian care? Who has succeeded in these situations? Who is taking action to lead change? What can we learn from them to lead the pack in our lives? *Leaders of the Pack* by Julie Kumble and Dr. Donald Smith explores key themes in leadership and highlights women in veterinary medicine whose stories embody those themes. In it, Kumble and Smith cull over three years of interviews to profile a wide variety of women as they share triumphs and challenges, lucky as well as tough breaks, and the sound advice and words that inspired them to take their careers in unanticipated directions. By sharing unique stories that illuminate different paths to leadership and reflecting on best practices through commentary and research, *Leaders of the Pack* will allow more female leaders to create wider pathways to the top of their profession.

China's G20 Leadership John J. Kirton, 2016-06-10 Kirton offers a comprehensive systematic examination of China's G20 approach, diplomacy, and influence since the G20's start as a forum for finance ministers and central bankers in 1999. This comprehensive reference tool works its way through China's elevation to the leaders' level with summits from 2008-2014 to the prospects for its Antalya Summit in November 2014 and, above all, China's first summit as host in Hangzhou in the autumn of 2016. This book contains a full treatment of China's role in the summits from 2011 to 2014 and China's plans, role, and prospects for the summits in 2015 and 2016. Analytically, it develops and tests at the level of a single member country the systemic hub model of G20 governance that was developed for and guided in Kirton's 2013 book *G20 Governance for a Globalized World*.

Strengthening the Heartbeat Thomas J. Sergiovanni, 2015-05-26 Study after study has concluded that no matter how

competently managed a school may be it is the bringing together of leadership and learning that makes the difference between ordinary and extraordinary performance Strengthening the Heartbeat offers leaders a clear and compelling way to help their schools achieve extraordinary results The proven principles outlined in this book can help any school build a culture of leadership and learning Thomas J Sergiovanni a leading thinker in the educational leadership arena shows how a strong heartbeat is a school s best defense against the obstacles leaders face as they work to change schools for the better But strengthening the heartbeat of schools requires that we rethink what leadership is how leadership works what leadership s relationship is to learning and why we need to practice both leadership and learning together Filled with illustrative examples Strengthening the Heartbeat shows how to build trust that leads to the creation of a vision and the building of a covenant that brings together principals teachers parents and students to honor shared values goals and beliefs When leaders are able to strengthen the heartbeat their schools become stronger and more resilient These qualities help leaders to share the burdens of leadership with others to create collaborative cultures and to be continuous learners Leadership inevitably involves change and change inevitably involves learning Using this book school leaders will have the tools they need to make their schools the best they can be
