endorsement and American engagement in the critical initial phase of the air campaign Although the seven month intervention stretched NATO's ammunition stockpiles and political will almost to their respective breaking points the definitive overthrow of the Gaddafi regime is universally regarded as a major accomplishment With contributions from a range of key thinkers and analysts in the field the book first explains the law and politics of the intervention starting out with deliberations in NATO and at the UN Security Council both noticeably influenced by the concept of a Responsibility to Protect R2P It then goes on to examine a wide set of military and auxiliary measures that governments and defence forces undertook in order to increasingly tilt the balance against the Gaddafi regime and to bring about an end to the conflict as well as to the intervention proper while striving to keep the number of NATO and civilian casualties to a minimum This book will be of interest to students of strategic studies history and war studies and IR in general

Scripting Middle East Leaders Sir Lawrence Freedman, Jeffrey Michaels, 2012-12-20 Both the US and the UK seemed caught off guard by the uprisings in Libya and Egypt and policymakers had to deal with leaders that switched from being allies to pariahs This collection of essays written by leading scholars examines the evolution of British and American perceptions of adversaries in the Middle East since the Cold War It traces the evolution of how leaders have been perceived what determined such perceptions and how they can change over time It shows that in many cases the beliefs held by policymakers have influenced their policies and the way they adapted during crisis Each essay focuses on a Middle East leader such as Nasser Assad Hussein or Ahmadinejad discussing what these leaders' objectives were perceived to be the assessments of their willingness to take risks or negotiate and how such assessments changed overtime and were evaluated in retrospect This groundbreaking contribution to the literature on leadership attitudes and perceptions in policymaking toward the Middle East will appeal to anyone studying foreign policy Middle East politics and political psychology
