Infrastructure and Quality of Life for Disadvantage [sic] Populations , 2008 This research is a pilot study aimed to identify environmental characteristics in colonias that are related to infrastructure and safety access to goods and services and quality of life A secondary objective consisted of evaluating a variety of tools that could be used to identify and assess these environmental characteristics El Cenizo in Webb County Texas was selected as our study colonia after preliminary visits and investigations A multi disciplinary approach framed this study considering the transportation urban design and planning public health and socioeconomic dimensions as potential determinants of the residents mobility behaviors environmental perception and quality of life Three instruments were developed to collect data for this research 1 a survey 2 an activity diary or travel diary and 3 environmental audit instruments Additionally this study also included a small sub group study testing the usability of wearable Global Positioning Systems GPS units as a research tool to capture spatial behavioral data combined with travel diary First the study has generated valuable data on transportation and mobility behaviors where almost no information is available Second the multidisciplinary approach has allowed a comprehensive approach towards a better understanding of the current needs of colonias especially those related to pedestrians Some of them could be easily addressed with direct short term interventions while other require a more long term plans Third the assessment of new research tools offers useful insights for future research in the context of similar low income marginalized communities

Whole Church Rune Larsson, 2021-07-20 Whole church for the sake of the world A church informs about its faith through all that it is says and does This threefold way of telling determines what the recipient hears Therefore if a church wants to be true to its mission it must constantly ask itself two questions What is the church s calling and what is the message it sends How do our churches deal with this challenge The Church is not for its own sake but for the world one of the analyzed documents says It is called to be an instrument for our loving God s plan to heal a broken world The basic pattern is found in the Holy Scriptures but in every time and every cultural context the Church must seek relevant ways and forms And why not do this in conversation and with open ears to the experiences of others and with the courage to change if necessary The first part of the book is the result of such a listening Perhaps it surprises someone that I turned to three American Catholics to listen to their experiences Inspired by the radical message of the Second Vatican Council they challenge their own church to a radical paradigm shift on the way of being a trustworthy church Using the model they

developed as a base I turned to my own church the Uniting Church in Sweden by asking the same question battery and the same to an ecumenical document The Church Towards a Common Vision And the result Yet another reminder that every church that wants to be part of God s mission for the sake of the world must constantly test itself in the face of the critical questions of how it faithfully can pass on its message of joys and hope to the world **Restoring the Soul of the University** Perry L. Glanzer,Nathan F. Alleman,Todd C. Ream,2017-03-28 Has the American university gained the whole world but lost its soul Christian universities must reimagine excellence in a time of exile placing the liberating arts before the liberal arts and focusing on the worship love and knowledge of God as central to academia This pioneering work charts the history of the university and casts an inspiring vision for the future of higher education *The Catholic Religion, Unabridged Edition* Vernon Staley,2007-05-03
