Fouberg,Alexander B. Murphy,Harm J. De Blij,2015 **Testimonio** Catherine Nolin,Grahame Russell,2021-10-25 What is land A resource to be exploited A commodity to be traded A home to cherish In Guatemala a country still reeling from thirty six years of US backed state repression and genocides dominant Canadian mining interests cash in on the transformation of land into property while those responsible act with near total impunity Editors Catherine Nolin and Grahame Russell draw on over thirty years of community based research and direct community support work in Guatemala to expose the ruthless state machinery that benefits the Canadian mining industry a staggeringly profitable juggernaut of exploitation sanctioned and supported every step of the way by the Canadian government This edited collection calls on Canadians to hold our government and companies fully to account for their role in enabling and profiting from violence in Guatemala The text stands apart in featuring a series of unflinching testimonios testimonies authored by Indigenous community leaders in Guatemala as well as wide ranging contributions from investigative journalists scholars Lawyers activists and documentarians on the ground As resources are ripped from the earth and communities and environments ripped apart the act of standing in solidarity and bearing witness rather than extracting knowledge becomes more radical than ever

Disaster Studies Janki Andharia,2020-03-25 This book covers several dimensions of disaster studies as an emerging discipline It is the inaugural book in the series Disaster Studies and Management and deals with questions such as Is disaster management a field of practice a profession or simply a new area of study Exploring intersectionalities the book also examines areas of research that could help enhance the discourse on disaster management from policy and practice perspectives revisiting conventional event centric approaches which are the basis for most writings on the subject Several case studies and comparative analyses reflect a critical reading of research and practice concerning disasters and their management The book offers valuable insights into various subjects including the challenge of establishing inter and multi disciplinary teams within the academia involved in disaster studies and sociological and anthropological readings of post disaster memoryscapes Each of the contributors has an enduring interest in disaster studies thus enriching the book immensely This book will be of interest to all the students and scholars of disaster studies and disaster management as well as to practitioners and policymakers **Sustainable Transportation in Natural and Protected Areas** Francesco Orsi,2015-07-16 Protected areas are at the centre of nature based tourism which is increasingly popular across the world As visitor numbers increase so does awareness of the harmful effects that large crowds may have on both natural resources and individuals recreational experience This volume considers the challenge of transportation to and within natural and protected areas the improvement of which has already been recognised as having great potential for mitigating the environmental

impacts of ecotourism While several books have focused considerable attention to the management of protected areas in general little has been said about the specific issue of sustainable transport an emerging trend that is already reshaping visitation patterns in natural settings This book provides current knowledge on issues associated with the transportation of visitors in natural and protected areas and a comprehensive overview of the technical and strategic options available to tackle these issues It approaches the subject via three main topics preferences or the visitors attitudes towards transportation practices where current approaches are assessed through examples and case studies of successful experiences and methodologies from around the world and policies where suggestions and recommendations are put forward for both local scale strategies and broad scale regulatory action with global relevance Contributors include academics in the field of natural resource management and tourism with extensive experience in protected area management and active partnerships with natural park administrations

America Ascendant Stanley B. Greenberg, 2015-11-03 America is poised to lead the 21st Century as it led the 20th That will happen because the country is at a tipping point in the battle for its own renewal a renewal that will allow America to be exceptional again Our economy is on the move fueled by revolutions in energy immigration innovation big data and advanced manufacturing America s energy independence has set off shockwaves Just as important are the social transformations that are making the country ever more racially and culturally diverse younger a home to immigrants and the metropolitan centers that foster a rising economic and cultural dynamism While most other countries struggle profoundly with immigration and religious and racial differences America s on a path to multicultural identity Those revolutions in the economy society and culture and are also producing a new American majority that embraces new values and new politics Republicans are waging a counter revolution and that is why America looks gridlocked and why the country is turning to Democrats to take on the country s growing challenges The economic and social transformations leave people struggling to earn enough and reach the middle class Families are under stress Government is corrupted by big money The American public is demanding the country address the dark side of our progress and reforms are starting to happen That is why Democrats will get to lead an era of reform and renewal comparable to the progressive era that mitigated the excesses of the Industrial Revolution In this incisive book expert strategist Greenberg draws on years of research and polling to illuminate how America is far from being gridlocked and he articulates a powerful vision of how American politics and America can be renewed

Atlas of Knowledge Katy Borner, 2015-03-20 The power of mapping principles for visualizing knowledge illustrated by many stunning large scale full color maps Maps of physical spaces locate us in the world and help us navigate unfamiliar routes Maps of

topical spaces help us visualize the extent and structure of our collective knowledge they reveal bursts of activity pathways of ideas and borders that beg to be crossed This book from the author of Atlas of Science describes the power of topical maps providing readers with principles for visualizing knowledge and offering as examples forty large scale and more than 100 small scale full color maps Today data literacy is becoming as important as language literacy Well designed visualizations can rescue us from a sea of data helping us to make sense of information connect ideas and make better decisions in real time In Atlas of Knowledge leading visualization expert Katy Brner makes the case for a systems science approach to science and technology studies and explains different types and levels of analysis Drawing on fifteen years of teaching and tool development she introduces a theoretical framework meant to guide readers through user and task analysis data preparation analysis and visualization visualization deployment and the interpretation of science maps To exemplify the framework the Atlas features striking and enlightening new maps from the popular Places Spaces Mapping Science exhibit that range from Key Events in the Development of the Video Tape Recorder to Mobile Landscapes Location Data from Cell Phones for Urban Analysis to Literary Empires Mapping Temporal and Spatial Settings of Victorian Poetry to Seeing Standards A Visualization of the Metadata Universe She also discusses the possible effect of science maps on the practice of science Urbanization with Chinese Characteristics: The Hukou System and Migration Kam Wing Chan, 2018-04-19 Many agree that rapid urbanization in China in the late 20th and early 21st centuries is a mega process significantly reshaping China and the global economy China's urbanization also carries a certain mystique which has long fascinated generations of scholars and journalists alike As it has turned out many of the asserted Chinese feats are mostly fancied claims or gross misinterpretations of statistics for example There does exist however an urbanization that displays rather uncommon Chinese characteristics that remain to inadequately understood Building on his three decades of careful research Professor Kam Wing Chan expertly dissects the complexity of China's hukou system migration urbanization and their interrelationships in this set of journal articles published in the last ten years These works range from seminal papers on Chinese urban definitions and statistics and broad perspective analysis of the hukou system of its first semi centennial to examinations of migration trends and geography and critical evaluations of China's 2014 urbanization blueprint and hukou reform plan This convenient assemblage contains many of Chan's recent important works Together they also form a relatively coherent set on this topic They are essential readings to anyone serious about gaining a true understanding of the prodigious urbanization in contemporary China Beyond Control James F. Barnett Jr., 2017-03-16 Beyond Control reveals the Mississippi as a waterway of change unnaturally confined by ever larger levees and control structures During the great flood of 1973 the current scoured a hole beneath the main structure near Baton Rouge and enlarged a pre existing football field size crater That night the Mississippi River nearly changed its course for a shorter and steeper path to the sea Such a map changing reconfiguration of the country's largest river would bear national significance as well as disastrous consequences for New Orleans and towns like Morgan

City at the mouth of the Atchafalaya River Since 1973 the US Army Corps of Engineers Control Complex at Old River has kept the Mississippi from jumping out of its historic channel and plunging through the Atchafalaya Basin to the Gulf of Mexico Beyond Control traces the history of this phenomenon beginning with a major channel shift around 3 000 years ago By the time European colonists began to explore the Lower Mississippi Valley a unique confluence of waterways had formed where the Red River joined the Mississippi and the Atchafalaya River flowed out into the Atchafalaya Basin A series of human alterations to this potentially volatile web of rivers starting with a bend cutoff in 1831 by Captain Henry Miller Shreve set the forces in motion for the Mississippi s move into the Atchafalaya Basin Told against the backdrop of the Lower Mississippi River s impending diversion the book s chapters chronicle historic floods rising flood crests a changing strategy for flood protection and competing interests in the management of the Old River outlet Beyond Control is both a history and a close look at an inexorable living process happening now in the twenty first century Creating Enemies David

Mattingly,2015-09-15 The Bush administration planned the invasion of Iraq to be a quick in and out operation without dedicating a large force for the invasion and the aftermath The honeymoon period immediately after the invasion closed and the insurgency movement emerged and grew when the Coalition Provisional Authority disbanded the army and banned the Ba ath Party and most of its members from participating in the new government The results of the orders created an insurgency war that the U S and Coalition forces had not planned to fight The war created numerous domestic and foreign insurgency groups and militias as well as a largely under governed area in Western Iraq on the Syrian border The Syrian Civil War drew a number of groups into the country to fight along the pro Shi a and pro Sunni factions The insurgency war born in the aftermath of the invasion has created regional instability and conflict The war has also crippled the U S in reacting to other global conflicts at a time when Russia is increasing its involvement in world affairs **Political**
