Geography Question Paper November 2014:

The Suburban Land Question Richard Harris, Ute Lehrer, 2018-04-13 As part of the urbanization process suburban development involves the conversion of rural land to urban use When discussing the suburbs most writers focus on particular countries in the northern hemisphere implying that patterns and processes elsewhere are fundamentally different The purpose of The Suburban Land Question is to identify the common elements of suburban development focusing on issues associated with the scale and pace of rapid urbanization around the world Editors Richard Harris and Ute Lehrer and a diverse group of contributors draw on a variety of sources including official data planning documents newspapers interviews photographs and field observations to explore the pattern process and planning of suburban land development Featuring case studies from major world regions including China India Latin America South Africa as well as France Austria the Netherlands the United States and Canada the volume identifies and discusses the peculiarly transitional character of suburban land In addition to place and time The Suburban Land Question addresses the many elements that distinguish land development in urban fringe areas including economy social infrastructure and legality Clean Power Politics Joseph P.

Tomain, 2017-02-17 Clean Power Politics explains clean energy policy and the need for a successful transition to clean energy in the future **The Complacent Class** Tyler Cowen, 2017-02-28 A Wall Street Journal and Washington Post Bestseller Tyler Cowen's blog Marginal Revolution is the first thing I read every morning And his brilliant new book The Complacent Class has been on my nightstand after I devoured it in one sitting I am at round the clock Cowen saturation right now Malcolm Gladwell Since Alexis de Tocqueville restlessness has been accepted as a signature American trait Our willingness to move take risks and adapt to change have produced a dynamic economy and a tradition of innovation from Ben Franklin to Steve Jobs The problem according to legendary blogger economist and best selling author Tyler Cowen is that Americans today have broken from this tradition we're working harder than ever to avoid change We're moving residences less marrying people more like ourselves and choosing our music and our mates based on algorithms that wall us off from anything that might be too new or too different Match.com matches us in love Spotify and Pandora match us in music Facebook matches us to just about everything else Of course this matching culture brings tremendous positives music we like partners who make us happy neighbors who want the same things We're more comfortable But according to Cowen there are significant collateral downsides attending this comfort among them heightened inequality and segregation and decreased incentives to innovate and create The Complacent Class argues that this cannot go on forever We are postponing change due to our near sightedness and extreme desire for comfort but ultimately this will make change when it comes harder The forces unleashed by the Great Stagnation will eventually lead to a major fiscal and budgetary crisis impossibly expensive rentals for our most attractive cities worsening of residential segregation and a decline in our work ethic The only way to avoid this difficult future is for Americans to force themselves out of their comfortable slumber to embrace their restless tradition again

Tax, Inequality, and Human Rights Philip Alston, Nikki Reisch, 2019-04-11 In *Tax Inequality and Human Rights* experts in human rights law and in tax law debate the linkages between the two fields and highlight how each can help to tackle rapidly growing inequality in the economic social and

political realms Against a backdrop of systemic corporate tax avoidance widespread use of tax havens persistent pressures to embrace austerity policies and growing gaps between the rich and poor this book encourages readers to understand fiscal policy as human rights policy and thus as having profound consequences for the well being of citizens around the world Prominent scholars and practitioners examine how the foundational principles of tax law and human rights law intersect and diverge discuss the cross border nature and human rights impacts of abusive practices like tax avoidance and evasion question the reluctance of states to bring transparency and accountability to tax policies and practices highlight the responsibility of private sector actors for shaping and misshaping tax laws and critically evaluate domestic tax rules through the lens of equality and nondiscrimination The contributing authors also explore how international human rights obligations should influence the framework for both domestic and international tax reforms They address what human rights law requires of state tax policies and how tax laws and loopholes affect the enjoyment of human rights by people outside a state s borders Because tax and human rights both turn on the relationship between the individual and the state neo liberalism s erosion of the social contract threatens to undermine them both

Globalization Development and Social Justice Ann El Khoury, 2015-03-27 Are there existing alternatives to corporate globalization What are the prospects for and commonalities between communities and movements such as Occupy the World Social Forum and alternative economies Globalization Development and Social Justice advances the proposition that another globalization is not only possible but already exists It demonstrates that there are multiple pathways towards development with social justice and argues that enabling propositional agency rather than oppositional agency such as resistance is a more effective alternative to neoliberal globalization El Khoury develops a theory of infraglobalization that emphasizes creative constitution not just contestation of global and local processes The book features case studies and examples of diverse economic practice and innovative emergent political forms from the Global South and North These case studies are located in the informal social economy and community development as well as everyday practices from prefigurative politics to community cooperatives and participatory planning This book makes an important contribution to debates about the prospects for and practices of a transformative grassroots globalization and to critical debates about globalization and development strategies It will be of interest to students and scholars of international relations globalization social movement studies political and economic geography sociology anthropology and development studies

Geographers Hayden Lorimer, Charles W. J. Withers, 2016-09-22 Geographers Biobibliographical Studies Volume 35 includes seven essays discussing the contribution made to geography by eleven geographers The subjects include three British figures Francis Rennell Rodd 1895 1978 expert on the Sahara David Harris 1930 2013 a geographer with archaeological interests and William Gordon East historical geographer 1902 1998 a Spanish urban scholar Enric Martin 1928 2012 Mauricio de Almeida Abreu 1948 2011 a Brazilian urban and historical geographer and two essays on French geographers one on Jacques Levainville 1869 1932 the other an

innovative prosopographical essay on five French authors involved in the monumental Vidalian *Geographie Universelle* of the early 20th century In these studies geography's international dimensions are illuminated and the subject's vibrant history shown to be the result of committed endeavours in the field in the classroom and in print **Push Back** Judith Large, 2016-12-15 In 2009 after decades of conflict the Sri Lankan government proclaimed the decisive defeat of the Liberation Tamil Tigers of Eelam Subsequently the state proved resistant to attempts by the UN and other international bodies to promote post war reconciliation or reform In this incisive new work Judith Large investigates the ways in which the Rajapaksa government was able to subvert international diplomatic efforts as well as exploring the wider context of rising Sinhalese nationalism the attendant growth of discrimination against minorities and efforts by both the diaspora and citizens within Sri Lanka to work towards a positive peace *Push Back* is vital reading not only for those interested in Sri Lanka but also for those concerned about the wider implications of the conflict for human rights peace making and geopolitics

Small Island Developing States Stefano Moncada, Lino Briguglio, Hilary Bambrick, Ilan Kelman, Catherine Iorns, Leonard Nurse, 2021-10-19 This book explores how vulnerable and resilient communities from SIDS are affected by climate change proposes and where possible evaluates adaptation activities identifies factors capable of enhancing or inhibiting SIDS people's long term ability to deal with climate change and critiques the discourses vocabularies and constructions around SIDS dealing with climate change The contributions written by well established scholars as well as emerging authors and practitioners in the field include conceptual papers coherent methodological approaches and case studies from the communities based in the Caribbean Sea and the Indian Atlantic and Pacific Oceans In their introduction the editors contextualise the book within the current literature They emphasise the importance of stronger links between climate change science and policy in SIDS both to increase effectiveness of policy and also boost scholarly enquiry in the context of whose communities are often excluded by mainstream research This book is timely and appropriate given the recent commission by the Intergovernmental Panel on Climate Change IPCC of a Special Report that aims at addressing vulnerabilities especially in islands and coastal areas as well as the adaptation and policy development opportunities following the Paris Agreement Coupled with this there is also the need to support the policy community with further scientific evidence on climate change related issues in SIDS accompanying the first years of implementation of the United Nations Sustainable Development Goals

The European Union and the Geopolitics of the Arctic Andreas Rasputnik, 2018-01-26 The Arctic is a region that has seen exponential growth as a space of geopolitical interest over the past decade This insightful book is the first to analyse the European Union's Arctic policy endeavours of the early 21st Century from a critical geopolitical perspective **The future of dialects** Marie-Hélène Côté, Remco Knooihuizen, John Nerbonne, 2016-02-05 Traditional dialects have been encroached upon by the increasing mobility of their speakers and by the onslaught of national languages in education and mass media Typically older dialects are leveling to become more like

national languages This is regrettable when the last articulate traces of a culture are lost but it also promotes a complex dynamics of interaction as speakers shift from dialect to standard and to intermediate compromises between the two in their forms of speech Varieties of speech thus live on in modern communities where they still function to mark provenance but increasingly cultural and social provenance as opposed to pure geography They arise at times from the need to function throughout the different groups in society but they also may have roots in immigrants speech and just as certainly from the ineluctable dynamics of groups wishing to express their identity to themselves and to the world The future of dialects is a selection of the papers presented at Methods in Dialectology XV held in Groningen the Netherlands 11-15 August 2014 While the focus is on methodology the volume also includes specialized studies on varieties of Catalan Breton Croatian Belgian Dutch English in the US the UK and in Japan German including Swiss German Italian including Tyrolean Italian Japanese and Spanish as well as on heritage languages in Canada America Ascendant Stanley B. Greenberg, 2015-11-03 Renowned pollster who was key advisor to President Clinton Stanley Greenberg reveals how America will be ascendant and how new Democratic presidents can lead a new era of bold reform **Geographies of Transport and Mobility** Stewart Barr, Jan Prillwitz, Tim Ryley, Gareth Shaw, 2017-10-04 Geographies of Transport and Mobility aims to provide a comprehensive and evidenced account of the intellectual and pragmatic challenges for personal mobility in the twenty first century In doing so it argues that geographers have a key role to play in shaping academic and policy debates on how personal mobility can become more sustainable The book is structured in three parts Part I explores how personal mobility has evolved since the mid nineteenth century plotting the intricate relationship between new forms of mobile technology urban planning and design and social practices Part II examines how researchers study transport and mobility and outlines the different intellectual trajectories of transport geography and geographies of mobilities Part III then outlines and discusses the discourse of sustainable mobility that has emerged in recent years the ways in which social economic and environmental sustainability can be promoted through different strategies focusing on behavioural change and urban design Geographies of Transport and Mobility provides a unique perspective on personal mobility by demonstrating how the way we travel has developed through complex economic and social processes It argues that this historical context is critical for considering how mobility in the twenty first century can be more sustainable not just environmentally but also economically and socially As such it argues for a renewed focus on sustainable place making as a way to radically shift mobility practices Geographies of Transport and Mobility is designed to appeal to advanced level undergraduate students and researchers in the fields of geography anthropology psychology sociology and transport studies
