improve access to education and efforts to improve education quality Embracing the complexity of education systems and focusing on dynamics where improvements in access and quality can be mutually reinforcing can be a new approach for improving basic education in different contexts around the world *Biogeography and Evolution in New Zealand* Michael Heads, 2016-10-04 *Biogeography and Evolution in New Zealand* provides the first in depth treatment of the biogeography of New Zealand a region that has been a place of long enduring interest to ecologists evolutionary scientists geographers geologists and scientists in related disciplines It serves as a key addition to the contemporary discussion on regionalization how is New Zealand different from the rest of the world With what other areas does it share its geology history and biota Do new molecular phylogenies show that New Zealand may be seen as a biological parallel universe within global evolution
