selling author Tyler Cowen is that Americans today have broken from this tradition we're working harder than ever to avoid change. We're moving residences less, marrying people more like ourselves and choosing our music and our mates based on algorithms that wall us off from anything that might be too new or too different. Match.com matches us in love, Spotify and Pandora match us in music, Facebook matches us to just about everything else. Of course, this matching culture brings tremendous positives: music we like, partners who make us happy, neighbors who want the same things. We're more comfortable. But according to Cowen, there are significant collateral downsides attending this comfort among them: heightened inequality and segregation and decreased incentives to innovate and create. The Complacent Class argues that this cannot go on forever. We are postponing change due to our near-sightedness and extreme desire for comfort, but ultimately, this will make change when it comes harder. The forces unleashed by the Great Stagnation will eventually lead to a major fiscal and budgetary crisis, impossibly expensive rentals for our most attractive cities, worsening of residential segregation, and a decline in our work ethic. The only way to avoid this difficult future is for Americans to force themselves out of their comfortable slumber to embrace their restless tradition again.

Potter, Angus Nurse, Matthew Hall, 2016-06-30 This book critically examines both theory and practice around conservation crimes. It engages with the full complexity of environmental crimes and different responses to them including poaching, conservation as a response to wildlife crime, forest degradation, environmental activism, and the application of scientific and situational crime prevention techniques as preventative tools to deal with green crime. Through the contributions of experts from both the social and ecological sciences, the book deals with theoretical and practical considerations that impact on the effectiveness of contemporary environmental criminal justice. It discusses the social construction of green crimes and the varied ways in

which poaching and other conservation crimes are perceived operate and are ideologically driven as well as practical issues in environmental criminal justice With contributions based in varied ideological perspectives and drawn from a range of academic disciplines this volume provides a platform for scholars to debate new ideas about environmental law enforcement policy and crime prevention detection and punishment

Muslim Fashion Reina Lewis, 2015-10-15 In the shops of London s Oxford Street girls wear patterned scarves over their hair as they cluster around makeup counters Alongside them hip twenty somethings style their head wraps in high black topknots to match their black boot cut trousers Participating in the world of popular mainstream fashion often thought to be the domain of the West these young Muslim women are part of an emergent cross faith transnational youth subculture of modest fashion In treating hijab and other forms of modest clothing as fashion Reina Lewis counters the overuse of images of veiled women as evidence in the prevalent suggestion that Muslims and Islam are incompatible with Western modernity Muslim Fashion contextualizes modest wardrobe styling within Islamic and global consumer cultures interviewing key players including designers bloggers shoppers store clerks and shop owners Focusing on Britain North America and Turkey Lewis provides insights into the ways young Muslim women use multiple fashion systems to negotiate religion identity and ethnicity

The End of Public Schools David W. Hursh, 2015-10-16 *The End of Public Schools* analyzes the effect of foundations corporations and non governmental organizations on the rise of neoliberal principles in public education By first contextualizing the privatization of education within the context of a larger educational crisis and with particular emphasis on the Gates Foundation and influential state and national politicians it describes how specific policies that limit public control are advanced across all levels Informed by a thorough understanding of issues such as standardized testing teacher tenure and charter schools David Hursh provides a political and pedagogical critique of the current school reform movement as well details about the increasing resistance efforts on the part of parents teachers and the general public

Cities and Stability Jeremy L. Wallace, 2014 *Cities and Stability* examines the threats that large cities pose to authoritarian regime survival and the ways that regimes respond to those threats particularly focusing on China s management of urbanization through its household registration hukou system

Social Capital at the Community Level John M. Halstead, Steven C. Deller, 2015-04-24 *In Social Capital at the Community Level* John Halstead and Steven Deller examine social capital formation beyond the individual level through a variety of disciplines planning economics regional development sociology as well as non traditional approaches like engineering and built environmental features The notion of social capital in community and economic development has become a focus of intense interest for policy makers practitioners and academics The notion is that communities with higher levels of social capital networks trust and norms will prosper both economically and socially In a practical sense how do communities use the notion of social capital to build policies and strategies to move their community forward Are all forms of social capital the same and do all have a positive influence on the community To help gain insights into these fundamental questions *Social Capital at the Community Level* takes a holistic interdisciplinary or systems approach to thinking about the community While those who study social capital will acknowledge the need for an interdisciplinary approach most stay within their disciplinary silos One could say there is strong bonding social capital within disciplines but little bridging social capital across disciplines The contributors to *Social Capital at the Community Level* have made an attempt to build that bridging social capital While disciplinary biases and research approaches are evident there is significant overlap about how people with different disciplinary perspectives think about social capital and how it can be applied at the community level This can be from neighborhoods addressing a localized issue to a global response to a natural disaster This book is an invaluable resource for scholars researchers and policy makers of community and economic development as well as rural sociologists and planners looking to understand the opaque process of social capital formation in communities

Dark Tourism Anukrati Sharma, Shruti Arora, Parag Shukla, 2024-10-30 *Dark Tourism* has seen a surge in popularity in the last decade as people seek a richer travel experience choosing to meaningfully engage with humankind s more troubling heritage rather than opting for merely escapist vacations

Asia in International

Relations Pinar Bilgin, L.H.M. Ling, 2017-02-01 Asia in International Relations decolonizes conventional understandings and representations of Asia in International Relations IR This book opens by including all those geographical and cultural linkages that constitute Asia today but are generally ignored by mainstream IR Covering the Indian subcontinent Turkey the Mediterranean Iran the Arab world Ethiopia and Central Northeast Southeast Asia the volume draws on rich literatures to develop our understanding of power relations in the world's largest continent Contributors de-colonize de-imperialize and de-Cold War the region to articulate an alternative narrative about Asia world politics and IR This approach reframes old problems in new ways with the possibility of transforming them rather than recycling the same old approaches with the same old intractable outcomes

The Government of Chronic Poverty Sam Hickey, 2013-10-31 What are the underlying causes of chronic poverty Can development beyond neoliberalism offer the strategies required to challenge such persistent forms of poverty particularly through efforts to promote citizenship amongst poor people Drawing on case study evidence from Africa Latin America and South Asia the contributions critically examine different attempts to govern chronic poverty via the promotion of particular forms and notions of citizenship with a specific focus on the role of community based approaches social policy and social movements Poverty is seen here as deriving from underlying patterns of uneven development involving processes of capitalism and state formation that foster inequality generating mechanisms and particularly disadvantaged social categories Sceptics tend to deride the emphasis under current inclusive forms of Liberalism on tackling poverty through the promotion of citizenship as inevitably depoliticising and disempowering for poor people and our cases do suggest that citizenship based strategies rarely alter the underlying basis of poverty However our evidence also offers some support to those optimists who suggest that progressive moves towards poverty reduction and citizenship formation have become more rather than less likely at the current juncture The promotion of citizenship emerges here as a significant but incomplete effort to challenge poverty that persists over time This book was published as a special issue of the *Journal of Development Studies*

A Handbook of Comparative Social Policy, Second Edition Patricia Kennett, 2013-01-01 This extensively revised edition of *A Handbook of Comparative Social Policy* provides up to date and valuable insights on key concepts and issues such as globalization crime diversity housing child poverty gender inequality and social policy regimes To write about these topics editor Patricia Kennett has gathered an excellent team of researchers who deal with both the developing and the advanced industrial world Students of comparative social policy would benefit from engaging with this illuminating Handbook Daniel Bland Johnson Shoyama Graduate School of Public Policy Canada The current context of social policy is one in which many of the old certainties of the past have been eroded The predominantly inward looking domestic preoccupation of social policy has made way for a more integrated international and outward approach to analysis which looks beyond the boundaries of the state It is in this context that this Handbook brings together the work of key commentators in the field of comparative analysis in order to provide comprehensive coverage of contemporary debates and

issues in cross national social policy research Organized around five themes this thoroughly revised and updated second edition explores the contextual conceptual analytical and processual aspects of undertaking comparative social research The contributions highlight specific areas of comparative social policy including child poverty and well being patterns of housing provision and housing inequalities and social protection in East Asia as well as crime and criminology in a global context The authors of the Handbook explore continuing and emerging themes as well as issues which are of particular relevance to understanding the contemporary social world International in scope this authoritative Handbook presents original cutting edge research from leading specialists and will become an indispensable source of reference for anyone interested in comparative and international social research It will also prove a valuable study aid for undergraduate and postgraduate students from a range of disciplines including social policy sociology politics urban studies and public policy

Rare Earth Frontiers Julie M. Klinger, 2018-01-15 Rare Earth Frontiers is a work of human geography that serves to demystify the powerful elements that make possible the miniaturization of electronics green energy and medical technologies and essential telecommunications and defense systems Julie Michelle Klinger draws attention to the fact that the rare earths we rely on most are as common as copper or lead and this means the implications of their extraction are global Klinger excavates the rich historical origins and ongoing ramifications of the quest to mine rare earths in ever more impossible places Klinger writes about the devastating damage to lives and the environment caused by the exploitation of rare earths She demonstrates in human terms how scarcity myths have been conscripted into diverse geopolitical campaigns that use rare earth mining as a pretext to capture spaces that have historically fallen beyond the grasp of centralized power These include legally and logistically forbidding locations in the Amazon Greenland and Afghanistan and on the Moon Drawing on ethnographic archival and interview data gathered in local languages and offering possible solutions to the problems it documents this book examines the production of the rare earth frontier as a place a concept and a zone of contestation sacrifice and transformation
