Transboundary Water Management Anton Earle, 2013 The management of water resources across boundaries whether sub national or international is one of the most difficult challenges facing water managers today The upstream exploitation or diversion of groundwater or rivers can have devastating consequences for those living downstream and transboundary rivers can provide a source of conflict between nations or states particularly where water resources are scarce Similarly water based pollution can spread across borders and create disputes and a need for sound governance This book is the first to bring together in a concise and accessible way all of the main topics to be considered when managing transboundary waters It will raise the awareness of practitioners of the various issues needed to be taken into account when making water management decisions and provide a practically based overview for advanced students The authors show clearly how vital it is to cooperate effectively over the management of shared waters to unlock their contribution to regional sustainable development The book is largely based on a long running and tested international training programme run by the Stockholm International Water Institute and Ramboll Natura and supported by the Swedish International Development Co operation Agency Sida where the respective authors have presented modules on the programmes It addresses issues not only of conflict but also of managing power asymmetries benefit sharing stakeholder participation international water law environmental water requirements and regional development It will be particularly useful for those with a background in hydrology or engineering who wish to broaden their management skills **Regional Worlds: Advancing the Geography**

of Regions Martin Jones, Anssi Paasi, 2017-10-02 A key concern in the debate and empirical research on the geography of regions is the evolution of the conceptualizations and practical uses of the idea of region This idea prioritises both the intellectual and the practical development of regional studies This book drives the discussion further It stresses the complex forms of agency advocacy involved in the production and reproduction of regional spaces and space of regionalism as well as the importance of geohistory and context The book moves beyond the territorial relational divide that has characterized debates on regions and regional borders since the 1990s The contributors answer key questions from different conceptual

and concrete contextual angles and to motivate readers to reflect on the perpetual significance of regional concepts and how they are mobilized by various actors to maintain or transform the contested spatialities of societal power relations This book was based on a special issue of Regional Studies **Subject Index to Periodicals** ,2009 2024-25 IAS All States PSC General Studies Indian & World Geography Solved Papers YCT Expert Team, 2024 25 IAS All States PSC General Studies Indian World Geography Solved Papers 400 695 E This book contains 380 sets solved papers and 4476 objective questions 2024-25 IAS/PSC General Studies Indian & World Geography YCT Expert Team , 2024 25 IAS PSC General Studies Indian World Geography *Averting Crisis in Ukraine* Steven Pifer,2009 This Council Special Report commissioned by CFR s Center for Preventive Action takes all these issues into account and examines the many challenges facing Ukraine The report comprehensively analyzes the country s difficulties related to both domestic conditions for example fractious politics and deeply divided public opinion and foreign policy for example issues related to the Black Sea Fleet and Ukrainian and European dependence on Russia s natural gas The report then recommends ways for the United States to encourage Ukraine on a path of stability and integration with the West It proposes measures to bolster high level dialogue between Washington and Kiev foster effective governance in Ukraine and reduce Ukraine s susceptibility to Russian pressure On the crucial NATO question the report urges the United States to support continued Ukrainian integration with the alliance though it recommends waiting to back concrete steps toward membership until Kiev achieves consensus on this point One need not agree with this judgment to find Pifer s analysis of value *Averting Crisis in Ukraine* takes a clear eyed look at the issues that could cause instability or worse in Ukraine But it also recommends practical steps that could increase the prospect that Ukraine will enjoy a prosperous democratic and independent future **Governing Global Production** J. Organic Food and Farming in China Steffanie Scott,Zhenzhong Si,Theresa Schumilas,Aijuan Chen,2018-10-03 Despite reports of food safety and quality scandals China has a rapidly expanding organic agriculture and food sector and there is a revolution in ecological food and ethical eating in China s cities This book shows how a set of social economic cultural and

environmental conditions have converged to shape the development of a formal organic sector created by top down state developed standards and regulations and an informal organic sector created by bottom up grassroots struggles for safe healthy and sustainable food This is generating a new civil movement focused on ecological agriculture and quality food Organic movements and markets have typically emerged in industrialized food systems that are characterized by private land ownership declining small farm sectors consolidated farm to retail chains predominance of supermarket retail standards and laws to safeguard food safety and an active civil society sector The authors contrast this with the Chinese context with its unique version of capitalism with social characteristics collective farmland ownership and predominance of smallholder agriculture and emerging diverse marketing channels China s experience also reflects a commitment to domestic food security evolving food safety legislation and a civil society with limited autonomy from a semi authoritarian state that keeps shifting the terrain of what is permitted The book will be of great interest to advanced students and researchers of agricultural and food systems and policy as well as rural sociology and Chinese studies Towards Sustainable Rural Regions in Europe John M. Bryden, Sophia Efstratoglou, Tibor Ferenczi, Karlheinz Knickel, Tom Johnson, Karen Refsgaard, Kenneth J. Thomson, 2012-03-28 This book presents the methodology and results of a three year eleven country science to policy research project Toward a Policy Model of Multifunctional Agriculture and Rural Development undertaken between 2005 and 2008 and financed under the European Union s Sixth Framework program It deals with an important contemporary policy issue how best to ensure that an agriculturally based policy can contribute to the development of rural regions It tackles this problem in a number of different but complementary ways primarily by the development of a unique and innovative dynamic systems model POMMARD a Policy Model of Multifunctional Agriculture and Rural Development

Sustainable City and Creativity Tüzin Baycan, 2016-04-01 The notion of creative cities where cultural activities and creative and cultural industries play a crucial role in supporting urban creativity and contributing to the new creative economy has become central to most regional and urban development strategies in recent years A creative city is supposed to develop imaginative and innovative solutions to a range of social economic and environmental problems economic stagnancy urban shrinkage social segregation global competition or more Cities and regions around the world are trying to develop facilitate or promote concentrations of creative innovative and or knowledge intensive industries in order to become more competitive These places are seeking new strategies to combine economic development with quality of place that will increase economic productivity and encourage growth Against this increasing interest in creative cities this volume offers a coherent set of articles on sustainable and creative cities and addresses modern theories and concepts relating to research on sustainability and creativity It analyses principles and practices of the creative city for the formulation of policies and recommendations towards the sustainable city It brings together leading academics with different approaches from different disciplines to provide a comprehensive and holistic overview of creativity and sustainability of the city linking research and
