Variables and Expressions

Write Mathematical Expressions In the algebraic expression, lw , the letters l and w are called **variables**. In algebra, a variable is used to represent unspecified numbers or values. Any letter can be used as a variable. The letters l and w are used above because they are the first letters of the words *length* and *width*. In the expression lw , l and w are called **factors**, and the result is called the **product**.

- b. five cubed

Cubed means raised to the third power.
