Experimental Psychology: Quantitative experiments: pt. 1. Students' manual. pt. 2. Instructor's manual

Edward Bradford Titchener, 1905 The general purpose with which this book has been written is sufficiently indicated by its title I have selected a number of the classical experiments of Experimental Psychology and have tried to present them in such a way that their performance shall have a real disciplinary value for the undergraduate student Within this general purpose my aim has been two fold I have sought to show in the first place that psychology is above the laboratory that we employ our instruments of precision not for their own sake but solely because they help us to a refined and more accurate introspection And secondly just as in my Outline of Psychology and Primer of Psychology I gave the results of experimentation a prominent place in the psychological system so here I have treated the selected experiments not as separate exercises but as points of departure for systematic discussion PsycINFO Database Record c 2005 APA all rights reserved *Manual del instructor de tiro* Héctor Mora Chamorro, 2013-06-04 Con este manual se pretende preparar a los lectores con un nivel de formación que les capacite para asumir con carácter general un puesto de instructor de tiro en el sector público o privado dotados de los conocimientos habilidades y estrategias necesarios para el cumplimiento de sus funciones El objetivo principal de esta obra es dotar al alumnado de los conocimientos indispensables para optar a la habilitación profesional como instructor de tiro

Technical Manual United States Department of the Army, 1951 Glock Paul M. Barrett, 2012-01-10 Based on fifteen years of research Glock is the riveting story of the weapon that has become known as American's gun Today the Glock pistol has been embraced by two thirds of all U S police departments glamorized in countless Hollywood movies and featured as a ubiquitous presence on prime time TV It has been rhapsodized by hip hop artists and coveted by cops and crooks alike Created in 1982 by Gaston Glock an obscure Austrian curtain rod manufacturer and swiftly adopted by the Austrian army the Glock pistol with its lightweight plastic frame and large capacity spring action magazine arrived in America at a fortuitous time Law enforcement agencies had concluded that their agents and officers armed with standard six round revolvers were getting outgunned by drug dealers with semi automatic pistols They needed a new gun When Karl Water a firearm salesman based in the U S first saw a Glock in 1984 his reaction was Jeez that's ugly But the advantages of the pistol soon became apparent The standard semi automatic Glock could fire as many as 17 bullets from its magazine without reloading one equipped with an extended thirty three cartridge magazine was used in Tucson to shoot Gabrielle Giffords and 19 others It was built with only 36 parts that were interchangeable with those of other models You could drop it underwater toss it from a helicopter or leave it out in the snow and it would still fire It was reliable accurate lightweight and cheaper to produce than Smith and Wesson's revolver Made in part of hardened plastic it was even rumored incorrectly to be invisible to airport security screening Filled with corporate intrigue political maneuvering Hollywood glitz bloody shoot outs and an attempt on

Gaston Glock's life by a former lieutenant Glock is at once the inside account of how Glock the company went about marketing its pistol to police agencies and later the public as well as a compelling chronicle of the evolution of gun culture in America
