exploring floating and sinking phet interactive simulations - May 12 2023

web activity sheet name class period learning objectives classify matter based on physical properties including relative density sinking or floating be able to rank the relative density of objects after observing their floating behavior

ch 1 exercises chemistry openstax - Jun 01 2022

web visit this phet density simulation and select mystery blocks a pick one of the mystery blocks and determine its mass volume density and its likely identity b pick a different mystery block and determine its mass volume density and its likely identity

density mass volume phet interactive simulations - Jan 08 2023

web explain why changing an object's mass or volume does not affect its density ie understand density as an intensive property measure the volume of an object by observing the amount of fluid it displaces identify an unknown material by calculating its density and comparing to a table of known densities version 1 05

phet density lab phet contribution - Apr 11 2023

web mar 10 2022 it also introduces them to the archimedes method of finding the volume and density of an object subject physics level high school type lab duration 90 minutes answers included yes language english keywords density gravity liquid mass volume weight simulation s density html5

density mass volume archimedes principle phet - Aug 15 2023

web interact with blocks of different materials including a custom option by modifying their mass and volume to explore the effect on the density and discover the conditions for sinking or floating in water play detective to determine the material of each block by comparing its density with the values in the table

density lab phet contribution - Apr 30 2022

web may 31 2016 density lab description students follow the handout directions to complete the guided lab while using the density simulator subject chemistry level middle school type guided activity lab duration 30 minutes answers included no language english keywords density mass volume
