Harmony Of Disenchantment:

Harmony of Disenchantment Rosario Di Petta, 2017 **Philosophy of Music** Riccardo Martinelli, 2019-10-21 Ranging from Antiquity to contemporary analytic philosophy it provides a concise but thorough analysis of the arguments developed by some of the most outstanding philosophers of all times Besides the aesthetics of music proper the volume touches upon metaphysics ethics philosophy of language psychology anthropology and scientific developments that have influenced the philosophical explanations of music Starting from the very origins of philosophy in Western thought Pythagoras Plato Aristotle the book talks about what music is according to Augustine Descartes Leibniz Rousseau Kant Hegel the Romantics Schopenhauer Nietzsche Wittgenstein Susanne Langer Bloch Adorno and many others Recent developments within the analytic tradition are illustrated with particular attention to the ontology of the musical artwork and to the problem of music and emotions A fascinating idea which recurs throughout the book is that philosophers allow for a sort of a secret kinship between music and philosophy as means to reveal complementary aspects of truth **Virtuosity and the Musical Work**

Jim Samson, 2007-04-23 This book is about three sets of etudes by Liszt the Etude en douze exercices 1826 its reworking as Douzes grandes tudes 1837 and their reworking as Douzes tudes d ex cution transcendante 1851 At the same time it is a book about nineteenth century instrumental music in general in that the three works invite the exploration of features characteristic of the early Romantic era in music These include a composer performer culture the concept of virtuosity the significance of recomposition music and the poetic and the consolidation of a musical work concept A central concern is to illuminate the relationship between the work concept and a performance and genre orientated musical culture At the same time the book reflects on how we might make judgements of the Transcendentals of the Symphonic Poem Mazeppa based on the fourth etude and of Liszt s music in general Shakespeare and the Classical Tradition Lewis Walker, 2019-05-24 This bibliography will give comprehensive coverage to published commentary in English on Shakespeare and the Classical Tradition during the period from 1961 1985 Doctoral dissertations will also be included Each entry will provide a clear and detailed summary of an item s contents For pomes and plays based directly on classical sources like Antony and Cleopatra and The Rape of Lucrece virtually all significant scholarly work during the period covered will be annotated For other works such as Hamlet any scholarship that deals with classical connotations will be annotated Any other bibliographies used in the compiling of this volume will be described with emphasis on their value to a student of Shakespeare and the Classics

Stratford Papers ,1963 **Absolute Music and the Construction of Meaning** Daniel Chua, 1999-11-25 This book is born out of two contradictions first it explores the making of meaning in a musical form that was made to lose its meaning at the turn of the nineteenth century secondly it is a history of a music that claims to have no history absolute music The book therefore writes against that notion of absolute music which tends to be the paradigm for most musicological and analytical studies It is concerned not so much with what music is but with why and how meaning is constructed in instrumental music

and what structures of knowledge need to be in place for such meaning to exist From the thought of Vincenzo Galilei to that of Theodore Adorno Daniel Chua suggests that instrumental music has always been a critical and negative force in modernity even with its nineteenth century apotheosis as absolute music **Stratford Papers on Shakespeare** ,1963 Interactive Group Work Jane E. McMahan, 2008-11-14 In this book David McMahan offers the first comprehensive attempt to chart the development of modern Buddhism His position is critical but empathetic while he presents modern Buddhism as a construction of numerous parties with varying interests he does not reduce it to a mistake a misrepresentation or a fabrication Rather he presents modern Buddhism as a complex historical process constituted by a variety of responses sometimes trivial often profound to some of the most important concerns of the modern era
