reference for collectible gun values the Gun Trader s Guide is the only book you need For more than half a century this guide has been the standard reference for collectors curators dealers shooters and gun enthusiasts Updated annually it remains the definitive source for making informed decisions on used firearms purchases Included are extensive listings for handguns shotguns and rifles from some of the most popular manufacturers including Beretta Browning Colt Remington Savage Smith Wesson Winchester and many more This thirty eighth edition boasts dozens of new entries since last year s edition and includes a complete index and a guide on how to properly and effectively use this book in order to find the market value for your collectible modern firearm Determine the new prices for any firearm you want to sell or trade whether its condition is in box excellent or good With new introductory materials that every gun collector and potential buyer should read this book is the ultimate guide to purchasing classic or discontinued firearms No matter what kind of modern firearm you own or collect the Gun Trader s Guide should remain close at hand Skyhorse Publishing is proud to publish a broad range of books for hunters and firearms enthusiasts We publish books about shotguns rifles handguns target shooting gun collecting self defense archery ammunition knives gunsmithing gun repair and wilderness survival We publish books on deer hunting big game hunting small game hunting wing shooting turkey hunting deer stands duck blinds bowhunting wing shooting hunting dogs and more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home      **The Counter Terrorist Manual** Leroy Thompson,2009-10-19 A comprehensive guide

to counterterrorism units around the world and their recruitment training weapons equipment tactics and missions In the past thirty five years counterterrorist units have been deployed to deal with airplane ship train and bus hijackings They have

rescued hostages in various types of buildings and have dealt with barricaded bank robbers prison rioters and assorted dangerous criminals Thousands have been rescued and millions have been safer because terrorists were aware that elite antiterrorist units were poised to act should they take hostages Following the September 11th attack on the World Trade Centre the mission of many anti terrorist units has expanded Some units now track terrorists to their lairs in other countries and strike them there Despite the significant and growing role of these units little is known about the way they operate The selection training structure and principles of maintaining such units together with basic theories of asymmetric warfare are the subject of Thompson s latest work In a practical step by step guide he analyses the necessary organization of such elite teams the arming and equipping of units and methods for a variety of missions from hostage rescue and high level dignitary protection to securing foreign embassies and counter WMD strikes Open the pages of this book and enter the world of the counterterrorist operator Praise for The Counter Terrorist Manual A finely illustrated guidebook to antiterrorist units deployed to handle airplane ship train and bus hijackings Units around the world are examined in a survey of these elite antiterrorist units and their operations a pick for any military library and packed with color photos of equipment and more

Midwest Book Review      **Special Operations Executive** Mark Seaman, 2013-01-11 This unique book presents an accurate and reliable assessment of the Special Operations Executive SOE It brings together leading authors to examine the organization from a range of key angles This study shows how historians have built on the first international conference on the SOE at the Imperial War Museum in 1998 The release of many records then allowed historians to develop the first authoritative analyses of the organization s activities and several of its agents and staff officers were able to participate Since this groundbreaking conference fresh research has continued and its original papers are here amended to take account of the full range of SOE documents that have been released to the National Archives The fascinating stories they tell range from overviews of work in a single country to particular operations and the impact of key personalities SOE was a remarkably innovative organization It played a significant part in the Allied victory while its theories of clandestine warfare and specialised equipment had a major impact upon the post war world SOE proved that war need not be fought by conventional methods and by soldiers in uniform The organization laid much of the groundwork for the development of irregular warfare that characterized the second half of the twentieth century and that is still here more potent than ever at the beginning of the twenty first This book will be of great interest to students of World War II history intelligence studies and special operations as well as general readers with an interest in SOE and World War II
