Knowledge management is no longer strange words in today's industrial landscape. What makes them do that? Is it really important for their success rather than their business units or sales growth? To answer that question of course an insight into the company is needed, but the crucial thing is that understanding of the basis of knowledge management is needed. Therefore the importance of it for a company will be known, how it could leverage their business performance, improves their effectiveness, and many other positive impacts. As a relatively new company although consist of business experts from the parent companies, XYZ have to struggle in the industry and maintain its strong position as well as adapting the internal structure of the joint venture. Thus, such condition can be seen in the first years of its life. Many changes happens inside the organizations, people joins and lefts, organizational structure changes, new rules, policies, and defined processes, new initiatives in cost control, etc.

These massive changes seem of course having its impact to the employees as well as XYZ is trying to get inside the best shape. The impact that are going to be discussed is the information that inside the company and how it would be better managed as the company's intention to keep on innovating which should start from the inside.

As a global company with a big number of employees, it is a challenge for the leaders to manage and share the diverse knowledge and information among every employee. It is difficult already to get all team members in a single team to have the same information and knowledge.
