the Balance of Payments Exchange Rate Systems Equilibrium and the Adjustment Process and The Post War International Financial System This book is designed for economics and business undergraduates studying international finance for the first time It is non mathematical and presumes no more than a general background in macroeconomics **International Finance (Classic Reprint)** Hartley Withers,2017-09-15 International Finance is a finance textbook written by Hartley Withers The purpose of this text is to introduce and educate the American public to the foundational principles of international finance In his introductory chapter Withers refers to finance as the machinery of money dealing The chapters of this book can thus be viewed as serving to explain the nuts and bolts of this machine Early chapters assume a more micro perspective and highlight topics such as bills of exchange The Bank of London the discount market and joint stock banks There is an entire chapter dedicated to an overview of investments and securities including specific discussion of government bonds and stock exchange dealings Later chapters view the topic through a macro lens The benefits and so called evils of international finance both receive their own chapters as does a discussion of national finance The final chapter of the book examines the regulatory pressures placed on international finance including an overview of the Stock Exchange Committee The book concludes with a helpful index International Finance is a thorough and well written textbook that is hampered by one significant but uncontrollable factor and that is the date of publication It is indisputable that the world of international finance is vastly different today than it was in 1916 Many of the specific mechanisms referred to in this book are out of date particularly sections regarding regulatory systems and bodies While Withers book still provides a decent macro level view of international finance the details can no longer be considered accurate Due to it s date of publication it is difficult to recommend International Finance for anything more than the historical context it can lend to modern day finance While an interesting read much of the information is simply out of date About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Reprints in International Finance University of Princeton.
