

**Gauteng Province
Grade 9 Lesson Plan 1
Term 3**

1. TOPIC: GRAPHS	
2. DATE:	DURATION: 1 HOUR
3. OBJECTIVES:	
By the end of the lesson learners should know and be able to: interpret graphs with special focus on the x -intercept and y -intercept of linear graphs	
4. RESOURCES:	DBE workbook 2 & any other textbook
5. REVIEW AND CORRECTION OF HOMEWORK: (Suggested time: 5 minutes)	
6. PRIOR KNOWLEDGE:	
Cartesian plane x - and y -axis, point of origin $(0; 0)$ ordered pairs (coordinates) and quadrants	
7. MENTAL MATHS: (Suggested time: 5 minutes)	
Learners are paired and discuss the questions posed by educator: (a) What is a Cartesian plane? (b) What do we call the horizontal line in the Cartesian plane? (c) What do we call vertical lines in the Cartesian plane? (d) How many quadrants do we have in a Cartesian plane?	
8. ENGLISH ACROSS THE CURRICULUM: (Suggested time: 10 minutes)	
<u>Terminology</u> Cartesian plane X -axis Y -axis x -intercept y -intercept Ordered pairs Coordinates <u>Assessment Words</u> Interpret Intercept	
9. INTRODUCTION: (Suggested time: 10 Minutes)	
The Educator engages learners by asking them to investigate: x -intercept: it is the point on the graph that "cuts" the X -axis. Here is an example of a graph drawn on a Cartesian plane. Let us look at lines A, B and C and the values of x and y where the line intersects the X -axis.

Lesson Plans Grade 10 Gauteng Province:

Glimpses into Primary School Teacher Education in South Africa Sarah Gravett, Elizabeth Henning, 2020-11-05

This book explores the current landscape of Initial Teacher Education ITE in primary schools in South Africa. Considering recent policy directives and initiatives, it highlights the dilemmas of ITE for the primary school and gives a thorough account of innovations and initiatives to improve ITE. The book presents what works best for quality preparation of teachers in the Global South where many children rely on their teachers and school life to break the cycle of poverty. Chapters draw on evidence from workplace learning, pre-service study, and primary school teacher education policy to highlight examples of promising change in teacher education in South Africa, addressing the clichés of theory versus practice head-on. This book successfully brings out the challenging aspects of teacher education for childhood learning, which has otherwise been regarded as the softer option for a career in education. This book will be of great interest for academics, researchers, and post-graduate students in the fields of teacher education, African education, educational policy, international education, and comparative education.

Future Directions of Educational Change Helen Malone, Santiago Rincón-Gallardo, Kristin Kew, 2017-08-09. *Future Directions of Educational Change* brings together timely discussions on social justice, professional capital, and systems change from some of the leading scholars in the field of education. Engaging in theory and evidence-based debates covering issues such as literacy education, whole system reform, and teacher leadership, this volume argues that quality and equity are equally important in reshaping existing education systems both within the United States and globally. The authors offer contextual analyses of current educational research and practice while looking toward the future and offering thought-provoking arguments for challenging and rectifying the systemic inequalities within education today.

South African Schooling: The Enigma of Inequality Nic Spaull, Jonathan D. Jansen, 2019-11-05. This volume brings together many of South Africa's leading scholars of education and covers the full range of South African schooling, from financing and policy reform to in-depth discussions of literacy, numeracy, teacher development, and curriculum change. The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with: Are there different and preferential equilibria we have not yet thought of or explored, and if so, what are they? In practical terms, how does one get to a more equitable distribution of teachers, resources, and learning outcomes? While decidedly local, these questions resonate throughout the developing world. South Africa today is the most unequal country in the world. The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth. This is the largest 90/10 gap in the world, and one that is reflected in the schooling system. Two decades after apartheid, it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination, but instead by the colour of their skin, the province of their birth, and the wealth of their parents. Looking back on almost three decades of democracy in South Africa, it is this stubbornness of inequality and its patterns of persistence that demands explanation.

justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people s future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI **Twenty Years of Education Transformation in Gauteng 1994 to 2014** Felix Maringe,Martin

Prew,2015-05-05 Twenty Years of Education Transformation in Gauteng 1994 to 2014 An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994 These essays talk to what a provincial education department does and how and why it does these things whether it be about policy resourcing or implementing projects Each essay is written by one or more specialist in the relevant focus area The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years both nationally and provincially There has been no attempt to fit the books chapters into a particular ideological or educational paradigm and as a result the reader will find differing views on various aspects of the Gauteng Department of Educations present and past We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years **Annual Report** South Africa. Department of Basic Education,2016

The Education Triple Cocktail Brahm Fleisch,2018-08-15 The Education Triple Cocktail brings together rigorous quantitative and qualitative research on a new approach to improving foundational teaching and learning for schoolchildren living in working class poor and remote rural communities in resource constrained systems like South Africa At the core of this book is the theory and evidence for a powerful new interlocking and mutually reinforcing change model Inspired by the AIDS treatment story the three pronged approach of structured daily lesson plans appropriate and high quality educational materials and one on one instructional coaching to help teachers transform their instructional practices in early grade classrooms shows that it will improve learning outcomes For education systems defined by low levels of early grade learning and profoundly unequal outcomes The Education Triple Cocktail offers a theoretically informed evidence based way forward This book will be of immense use to teachers students of Education policymakers and parents

Knowledge, Curriculum and Equity Brian Barrett,Ursula Hoadley,John Morgan,2017-07-20 In 2008 the first in a series

of symposia established a social realist case for knowledge as an alternative to the relativist tendencies of the constructivist post structuralist and postmodernist approaches dominant in the sociology of education The second symposium focused on curriculum and the development of a theoretical language grounded in social realism to talk about issues of knowledge and curriculum Finally the third symposium brought together researchers in a broad range of contexts to build on these ideas and arguments and with a concerted empirical focus bring these social realist ideas and arguments into conversation with data Knowledge Curriculum and Equity Social Realist Perspectives contains the work of the third symposium where the strengths and gaps in the social realist approach are identified and where there is critical recognition of the need to incrementally extend the theories through empirical study Fundamentally the problem that social realism is seeking to address is about understanding the social conditions of knowledge production and exchange as well as its structuring in the curriculum and in pedagogy The central concern is with the on going social reproduction of inequality through schooling and exploring whether and how foregrounding specialised knowledge and its access holds the possibility for interrupting it This book consists of 13 chapters by different authors working in Oceania Asia Europe Africa and North America From very different vantage points the authors focus their theoretical and empirical sights on the assumptions about knowledge that underpin educational processes and the pursuit of more equitable schooling for all *African Studies: Breakthroughs in Research and Practice* Management Association, Information Resources, 2020-04-03 Global interest in African studies has been rapidly growing as researchers realize the importance of understanding the impact African communities can have on the economy development education and more As the use acceptance and popularity of African knowledge increases it is crucial to explore how this community based knowledge provides deeper insights understanding and influence on such things as decision making and problem solving African Studies Breakthroughs in Research and Practice examines the politics culture language history socio economic development methodologies and contemporary experiences of African peoples from around the world Highlighting a range of topics such as indigenous knowledge developing countries and public administration this publication is an ideal reference source for sociologists policymakers anthropologists government officials economists instructors researchers academicians and graduate level students in a variety of fields *African Drum*, 2005

Politics and Governance of Basic Education Brian Levy, Robert Cameron, Ursula Hoadley, Vinodhan Naidoo, 2018-09-21 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations All over the world economic inclusion has risen to the top of the development discourse A well performing education system is central to achieving inclusive development but the challenge of improving educational outcomes has proven to be unexpectedly difficult Access to education has increased but quality remains low with weaknesses in governance comprising an important part of the explanation The Politics and Governance of Basic Education explores the balance between hierarchical and horizontal

institutional arrangements for the public provision of basic education Using the vivid example of South Africa a country that had ambitious goals at the outset of its transition from apartheid to democracy it explores how the interaction of politics and institutions affects educational outcomes By examining lessons learned from how South Africa failed to achieve many of its goals it constructs an innovative alternative strategy for making process combining practical steps to achieve incremental gains to re orient the system towards learning

This Engaging World of E-book Books: A Comprehensive Guide Unveiling the Benefits of E-book Books: A World of Convenience and Flexibility Kindle books, with their inherent portability and ease of access, have liberated readers from the constraints of hardcopy books. Gone are the days of carrying bulky novels or carefully searching for specific titles in shops. E-book devices, stylish and lightweight, seamlessly store an wide library of books, allowing readers to immerse in their preferred reads anytime, everywhere. Whether commuting on a busy train, relaxing on a sunny beach, or just cozying up in bed, E-book books provide an unparalleled level of convenience. A Literary World Unfolded: Exploring the Vast Array of Kindle Lesson Plans Grade 10 Gauteng Province Lesson Plans Grade 10 Gauteng Province The E-book Shop, a virtual treasure trove of literary gems, boasts an extensive collection of books spanning diverse genres, catering to every readers taste and choice. From gripping fiction and thought-provoking non-fiction to classic classics and contemporary bestsellers, the E-book Store offers an exceptional variety of titles to explore. Whether looking for escape through immersive tales of fantasy and exploration, diving into the depths of past narratives, or broadening ones knowledge with insightful works of science and philosophical, the E-book Shop provides a doorway to a literary world brimming with endless possibilities. A Game-changing Force in the Literary Landscape: The Lasting Influence of Kindle Books Lesson Plans Grade 10 Gauteng Province The advent of E-book books has undoubtedly reshaped the bookish landscape, introducing a model shift in the way books are released, distributed, and consumed. Traditional publishing houses have embraced the online revolution, adapting their approaches to accommodate the growing need for e-books. This has led to a rise in the accessibility of E-book titles, ensuring that readers have access to a vast array of literary works at their fingertips. Moreover, Kindle books have equalized access to books, breaking down geographical barriers and offering readers worldwide with similar opportunities to engage with the written word. Irrespective of their location or socioeconomic background, individuals can now engross themselves in the captivating world of literature, fostering a global community of readers. Conclusion: Embracing the E-book Experience Lesson Plans Grade 10 Gauteng Province Kindle books Lesson Plans Grade 10 Gauteng Province, with their inherent ease, versatility, and vast array of titles, have undoubtedly transformed the way we encounter literature. They offer readers the freedom to discover the limitless realm of written expression, anytime, everywhere. As we continue to travel the ever-evolving online scene, Kindle books stand as testament to the persistent power of storytelling, ensuring that the joy of reading remains reachable to all.
