HMS Cavalier Destroyer 1944 Richard Johnstone-Bryden, 2015-07-30 HMS Cavalier is a C Class destroyer one of 96 War Emergency Programme destroyers that were ordered between 1940 and 1942. She saw action on convoy duty off Russia and later in 1945 was sent to the Far East where she provided naval gunfire support during the battle of Surabaya. She continued with the British Pacific Fleet until May 1946. Now designated as a war memorial to the 142 RN destroyers and 11 000 men lost during WWII, she is on display at Chatham Historic Dockyard. As is the case for many museum ships, there is a surprising shortage of informative and well illustrated guides for reference during a visit or for research by enthusiasts, ship modellers, naval buffs, historians or students. This book in the Seaforth Historic Ship series redresses the gap. Containing more than 200 specially commissioned photographs, the book takes the reader on a superbly illustrated tour of the ship from bow to stern and deck by deck. Significant parts of the vessel, for example the gun turrets and engine rooms, are given detailed coverage both in words and pictures so that the reader has at hand the most complete visual record and explanation of the ship that exists. In addition, the importance of the ship both in her own time and now as a museum vessel is explained. No other book offers such superb visual impact nor brings the ship so vividly to life. *Mergent Public Utility Manual*, 2002

Art Forgery Thierry Lenain, 2012-01-15 With the recent advent of technologies that make detecting art forgeries easier, the art world has become increasingly obsessed with verifying and ensuring artistic authenticity. In this unique history, Thierry Lenain examines the genealogy of faking and interrogates the anxious, often neurotic reactions triggered in the modern art world by these clever frauds. Lenain begins his history in the Middle Ages when the issue of false relics and miracles often arose. But during this time, if a relic gave rise to a cult, it would be considered as genuine even if it obviously had been forged. In the Renaissance, forgery was initially hailed as a true artistic feat. Even Michelangelo, the most revered artist of the time, copied drawings by other masters, many of which were lent to him by unsuspecting collectors. Michelangelo would keep the originals himself and return the copies in their place. As Lenain shows, authenticity as we think of it is a purely modern concept. And the recent innovations in scientific attribution, archaeology, graphology, medical science and criminology

have all contributed to making forgery more detectable and thus more compelling and essential to detect He also analyzes the work of master forgers like Eric Hebborn Thomas Keating and Han van Meegeren in order to describe how pieces baffled the art world Ultimately Lenain argues that the science of accurately deciphering an individual artist s unique characteristics has reached a level of forensic sophistication matched only by the forger s skill and the art world s paranoia **Poor's**
