Objectives	<p>1. Apply inquiry-based and problem-solving processes and skills to scientific investigations</p> <ul style="list-style-type: none"> <li>- Use current technologies, such as CD-ROM, DVD, Internet, and on-line data search to explore current research related to a specific topic (DOK 3)</li> <li>- Collect, analyze, and draw conclusions from data to create a formal presentation using available technology (e.g., computers, calculators, Smartboard, CBL's, etc.) (DOK 3)</li> </ul> <p>2. Demonstrate an understanding of the structure, functions, and relationships of the body systems.</p> <ul style="list-style-type: none"> <li>- Distinguish the location, structure, and functions of the endocrine glands (DOK 1) <ul style="list-style-type: none"> <li>a. Major endocrine glands</li> <li>b. Function of each endocrine gland and the various hormones they generate by each</li> <li>c. Negative feedback mechanisms that regulate hormonal secretions</li> </ul> </li> <li>- Research common disorders or diseases of the endocrine system and assess the unique problems associated with diagnoses and treatments (DOK 3)</li> </ul>
What should the students know as a result of this lesson?	The student will understand: structure and function of major hormones, relative locations of major endocrine glands within the human body, the importance of hormones for maintaining homeostasis, how to calculate heart rate, and diseases/disorders associated with the endocrine system.
What should students be able to do as a result of this lesson?	The student should be able to: identify major endocrine glands within the body, describe relationships between hormones and homeostasis, perform calculations to determine heart rate, use appropriate microscope techniques, conduct research with multiple resources (e.g., Internet, reference books, etc.).
Materials Needed	Live <i>Daphnia</i> culture, beakers, distilled water, adrenaline solution, digital timer, cotton, microscope, lens paper, microscope slides (depression), disposable pipettes, paper towels, surgical gloves, lab report, textbooks, library access, Internet, computers

**Elementary School Wellness Education** Matthew Cummiskey, Frances Cleland Donnelly, 2022-06-20 Health education and physical education are traditionally siloed for no good reason according to authors Matthew Cummiskey and Frances Cleland Donnelly So through Elementary School Wellness Education the two authors provide a blueprint complete with lesson plans for teachers to fuse health education and physical education into one elementary school class Students should be educated in a more holistic manner says Cummiskey We applied the concept of school wellness education at the elementary level which has components of both traditional health education and physical education Elementary School Wellness Education offers the following 37 detailed lesson plans for grades K 5 19 lessons for K 2 and 18 lessons for grades 3 5 that are tied to SHAPE America Outcomes and National Health Education Performance Indicators Clear instruction on how to apply the plans making it perfect for both preservice and in service teachers More than 70 lesson plan handouts with four color graphics available in the HKPropel platform that are easy for teachers to print A test package presentation package and instructor guide that make this ideal for existing and emerging teacher education courses A typical School Wellness Education SWE lesson combines classroom based learning activities such as discussions worksheets and videos with physical activity All the lessons in the book take place in the gymnasium so there s no need for a separate health education classroom In addition the SWE approach helps teachers maximize their instruction time by meeting multiple learning standards simultaneously The lessons are learning focused with each activity carefully aligned to the objectives says Cleland Donnelly Moreover they re fun Students aren t sitting in a traditional classroom learning health they re doing it in the gym SWE also uses traditional PE equipment and the gym in new and creative ways she adds This is especially important in schools that lack a separate health education classroom Elementary School Wellness Education addresses emergent pedagogies such as skill based education universal design for learning social and emotional learning and social justice helping both in service and preservice teachers understand how to use and benefit from these pedagogical approaches It also guides readers in how to teach wellness education online as effectively as face to face Teachers will learn how to teach the content in person online or in a hybrid approach The good news for teachers is that SWE is not a dramatic departure from existing instruction says Cummiskey Students are still moving and being taught in the gymnasium but now health content and skills are being infused into all the lessons The book he says is also suitable for use by classroom teachers looking to promote wellness or incorporate additional physical activity into their students days The intent is to imbue students with the knowledge skills and dispositions to lead a healthy life into and through adulthood he says Note A code for accessing HKPropel is included with this ebook

*Resources in Education* ,1992-08      *Advanced Pre-Med Studies Parent Lesson Plan* ,2013-08-01 Advanced Pre Med Studies Course Description Semester 1 From surgery to vaccines man has made great strides in the field of medicine Quality of life has improved dramatically in the last few decades alone and the future is bright But students must not forget that God

provided humans with minds and resources to bring about these advances A biblical perspective of healing and the use of medicine provides the best foundation for treating diseases and injury In *Exploring the History of Medicine* author John Hudson Tiner reveals the spectacular discoveries that started with men and women who used their abilities to better mankind and give glory to God The fascinating history of medicine comes alive in this book providing students with a healthy dose of facts mini biographies and vintage illustrations It seems that a new and more terrible disease is touted on the news almost daily The spread of these scary diseases from bird flu to SARS to AIDS is a cause for concern and leads to questions such as Where did all these germs come from and how do they fit into a biblical world view What kind of function did these microbes have before the Fall Does antibiotic resistance in bacteria prove evolution How can something so small have such a huge deadly impact on the world around us Professor Alan Gillen sheds light on these and many other questions in *The Genesis of Germs* He shows how these constantly mutating diseases are proof for devolution rather than evolution and how all of these germs fit into a biblical world view Dr Gillen shows how germs are symptomatic of the literal Fall and Curse of creation as a result of man's sin and the hope we have in the coming of Jesus Christ Semester 2 *Body by Design* defines the basic anatomy and physiology in each of 11 body systems from a creationist viewpoint Every chapter explores the wonder beauty and creation of the human body giving evidence for creation while exposing faulty evolutionist reasoning Special explorations into each body system look closely at disease aspects current events and discoveries while profiling the classic and contemporary scientists and physicians who have made remarkable breakthroughs in studies of the different areas of the human body Within *Building Blocks in Life Science* you will discover exceptional insights and clarity to patterns of order in living things including the promise of healing and new birth in Christ Study numerous ways to refute the evolutionary worldview that life simply evolved by chance over millions of years The evolutionary worldview can be found filtered through every topic at every age level in our society It has become the overwhelmingly accepted paradigm for the origins of life as taught in all secular institutions This dynamic education resource helps young people not only learn science from a biblical perspective but also helps them know how to defend their faith in the process
