

Lab 9 | Climate Classification

Part 1 | Climate Classification (Part 1 in Lab Manual)

This lab is included in Exercise 11 Climate Classification in your Physical Geography Laboratory Manual. Please visit to complete this lab.

Overview

Climate is a major focus for physical geographers and is central to our understanding of environmental challenges we face today. In this lab, you will explore world climate using climographs (temperature and precipitation data plotted on graphs).

Objective

The main aim of this lab is to use temperature and precipitation data to identify climates within the Köppen climate classification system.

Instructions

1. Read the lab (Exercise 11) in your Physical Geography Laboratory Manual.
2. Use the lab's appendix Part 1 to create five climographs. These climographs should resemble Figure 20-1 (pg. 444) in the lab manual. Use your completed climographs to answer the questions in this quiz. Mark the quiz items as the quiz is in Part 2 of the manual. Save or export your answers to this quiz. Use all 5 lab Parts 1, 2, 3, 4, and 5.

If you are using the version of the lab manual that is a climograph template, you may want to make your graphs. It doesn't have to be printed out. Please append the lab version page as well.
