The Insiders? Secrets to College Financial Aid Gary Liess, 2012-12-05 Guess what The average American family is paying a boatload more money than they need to for their child s college education That s right And the vast majority of CPAs tax specialists financial advisors college counselors and your great uncle do not have the right information or the strategies for helping you deal with one of the biggest expenses in your life Why is this Because college planning is a highly specialized field and there are only a small number of people who understand the complexities and best methods for saving significant amounts of money In this book you will read about real world people my clients and the broad spectrum of financial situations they are in as well as what they themselves learned by working with me You will understand why your typical financial advisor doesn t have a clue about how to help you This book offers a quick and easy guide to saving you thousands of dollars You can learn to use the same methods that a trained college professional planner uses daily I give the reader access to the insiders secrets and strategies that the pros use to reduce college costs significantly planning that they charge thousands of dollars to carry out Also and this is the exciting part you will discover in less than 5 minutes if you CAN reduce out of pocket costs for college every year by using our trademark College Cost Reduction Calculator Don t waste your time with the FAFSA4Caster web sites that have trial FAFSA calculators or other college calculators that can only give you an estimated cost contribution These calculators will not give you accurate information on how much you can reduce your

college costs The reason for this is that colleges don't want you to understand their mysterious college financial aid formulas This book is a practical guide to how the system really works I see people daily who need to find ways of financing their children's college education and document their stories These stories cover the gamut from tales of families going through divorce to folks who thought they had it all together only to find they have set themselves up to pay significantly more than they should be paying When I ask my clients the question How are you planning on paying for college or what is your current plan to pay for college I hear the same answer over and over Scholarships and grants or Loans and scholarships Nobody wants to hear that for most people it's going to take hard cold cash and that the percentage of available scholarships is so small it isn't worth applying for them When the reality hits home on how much financial hardship paying for college creates it's disheartening to witness I am delighted to offer this book as my contribution to the world at a time when college costs are soaring and student loans put young people in servitude for their lives making the American dream an impossible dream I have written this book in an effort to cut through the subterfuge and confusion that surrounds college financial aid and to illuminate the way out

Financial Aid and Loans for Students Crash Course IntroBooks, 2019-12-21 Different schools have different policies regarding how they offer financial aids to students A student seeking financial aid from any particular institution will therefore do well to stay abreast of information about that particular institution and its regulations regarding financial aid Each of these schools has different aims regarding how much of student financial needs they are willing to meet While some schools like Columbia University intend to meet 100% of the students needs financially some other schools go less Grants are given to students without repayment The amount of grant varies based on the level of education and also the complexity of the study work or project In the case of New York University for example grants provided only meet 68% of the student's needs this means the student may experience budget gap This same school gives most of its aids to its students in the form of loans which the student is expected to pay back after graduation Some conditions also determine how much of the student's needs the school can meet A student with solid academic performance for example can benefit from a higher percentage of financial aid compared to another student not having such performance Some other schools consider the financial strength of the student or that of his/her parent when offering financial aids However a school like Columbia University mentioned earlier does not utilize such measure to determine who to give student loan and who not to give they give their students aids based on merit alone It translates to the fact that even Bill Gate's son can get student aid based on merit in this school There are several other schools in the same category some of such schools offering their students merit aid are Brown University Pomona College Amherst College Williams College Princeton University and Massachusetts Institute of Technology In calculating merit award the institutions concerned would consider the percentage discount off tuition Private colleges offer average tuition discount of 33.5% this means a student can end up paying only 19,650 if the actual tuition fee is 30,000 The cut represents 33.5% of the actual fee In public college on the other hand the student is given

just 15% cut off the actual price When seeking for school financial aid the school can give the student verbal assurance but this is never enough The best guide a student can have regarding financial aids is the Common Data Set Each of the schools in the united states has a Common Data Set it is an amazing document more or less a treasure trove of statistics on the characteristics valued by the school in its application retention freshmen class profile and enrollment The document will equally show the number of students requiring financial aid from the institution concerned as well as the number of students that are given Furthermore the document reveals information about the percentage of student s needs the institution can meet how the awards are split between loans and grants as well as what average package is worth The student can easily search the major search engines for Common Data Set specific for any school The internet can reveal information about in house scholarship and college aids for easy access Such information can equally reveal if a student is qualified for financial aid or not Some schools like Baylor University provide scholarship calculator on their website which helps the student check eligibility for any particular scholarship program related to the school Eligibility for any scholarship is usually determined by the class rank of the student as well as his her ACT or SAT score
