STEM Education, 2024-05-29 This book examines Science Technology Engineering and Mathematics STEM education in different countries with a focus on recent developments and emerging trends STEM education has become a gateway for socio economic and technological development of nation states In light of this many countries have prioritized STEM education and made it an integral part of their education at all levels Moreover many approaches have been used to develop STEM education and teach students to compete with the fast developing world However despite its infinite benefits it is also important to note that there is inequality in the access and delivery of STEM education within and across countries which requires new approaches to improve STEM education and its teaching and learning Therefore this book consists of chapters on the development teaching and access of STEM education from different education levels countries and perspectives The chapters discuss the concept of STEM education in general or on a particular level of education g PreK 12 education vocational education and higher education or subjects such as mathematics computer science and architecture Moreover the book includes chapters based on the nexus of STEM education and other subjects including arts and culture to teaching STEM education The book contributes to understanding and improving STEM education and instruction globally of research outcomes to confirm achievement of the millennium development goals Simeon O. Jekayinfa, 2017-09-15 In 2000 the leaders of member states of the United Nations adopted the Millennium Declaration which set out a series of clear commitments goals and targets to achieve Human Development These ambitious goals were subsequently refined into eight Millennium Development Goals MDGs designed to provide a framework for accountability donor coordination and resource mobilization The MDGs are Eradicate extreme poverty and hunger achieve universal primary education promote gender equality and empower women reduce child mortality improve maternal health combat HIV AIDS malaria and other diseases ensure environmental sustainability and develop a global partnership for development The first seven of these Goals are concerned with outcomes identifying the progress towards certain standards of human well being and decent living which should be achieved globally and nationally by 2015 The eighth Goal is concerned with relationships identifying various aspects of a global partnership for development which must be forged to support the realization of these poverty reduction human development and environmental sustainability standards The MDGs provide opportunities to start working from real life development problems Addressing these problems requires multidisciplinary approaches that combine the natural sciences the life sciences and technical approaches with social science approaches. The challenge is to integrate social economic political and institutional concerns into research strategy To be able to achieve this there is a need to establish a linking pin between research policy and practice in Nigeria The aim of such a linking pin would be to synthesize research outcomes on specific MDGrelated topics and to translate these into implications for policy and decision making through easily accessible gathering where individual stakeholders can air their views The articles contained in this book address

research outcomes from stakeholders Sociologists Economists Agronomists Agricultural Engineers Civil Engineers Environmental Scientists and Engineers Geographers Geologists Microbiologists Medical Practitioners Policy Makers Educationists etc to confirm achievement of Millennium Development Goals in Nigeria and other neighboring countries
