Tippins, 2013-09-13 The Handbook of Employee Selection summarizes the state of science and practice in the field of employee selection Chapters in this book cover issues associated with measurement such as validity and reliability as well as practical concerns around the development of appropriate selection procedures and implementation of selection programs Several chapters discuss the measurement of various constructs commonly used as predictors and other chapters confront criterion measures that are used in test validation Ethical and legal concerns are dealt with in another set of chapters and highlight the concerns of the employer as well as the test taker and the psychologist responsible for the testing program Final sections of the book include chapters that focus on testing for certain types of jobs e g blue collar jobs supervisory jobs and describe important milestones in the development of selection programs

Handbook of Technology Application in Tourism in Asia Azizul Hassan, 2022-07-09 It is an undisputed reality that the tourism industry in Asia is getting exposed to more innovative technologies than ever before This proposed book provides the latest research in the application of innovative technology to the tourism industry covering the perspectives innovativeness theories issues complexities opportunities and challenges This book a blend of comprehensive and extensive effort by the contributors and editors is designed to cover the application and practice of technology in tourism including the relevant niches This book focuses on the importance of technology in tourism This also highlights in a comprehensive manner specific technologies that are impacting the tourism industry in Asia as well as the constraints the industry is facing The contents of this book deal with distinct topics such as mobile computing new product designs innovative technology usages in tourism promotion technology driven sustainable tourism development location based apps mobility accessibility and so on A good number of research studies have conducted outlining the contributions and importance of technologies in tourism in general However the tourism industry of Asia so far has attracted very few researchers Some contributions have been made but not sufficient Considering the ongoing trend of technology application in the tourism industry in Asia very few research attempts have been made aiming to explore diverse aspects Tourism is expanding enormously across the world which actually creates more demands for effective technologies This book will be a reading companion especially for tourism students in higher academic institutions This book will also be read by the relevant policy planners and industry professionals Apart from them this book will be appreciated by expatriate researchers and researchers having keen interest in the Asian tourism industry

Cross-disciplinary STEM Learning for Asian Primary Students Winnie Wing Mui So, Zhi Hong Wan, Tian Luo, 2023-11-27 Given the importance of student learning in the various types and integration of STEM education this book provides a landscape of cross disciplinary STEM learning in Asian primary schools and a systematic overview of design practices and outcomes of STEM learning implementation Science Technology Engineering and Mathematics STEM has continued to attract attention worldwide and there have been calls for the promotion of STEM education in primary

schools to nurture students to meet the needs of societies in terms of innovation and technology development Since STEM is complex in nature and is related to various disciplines the effort of a single discipline may not be as effective as cross disciplinary efforts This edited volume involving an Asian team of authors examines how cross disciplinary STEM learning can be designed for students to achieve viable outcomes and what opportunities and challenges have been offered to the next generation to equip them with the necessary skills knowledge and ways of thinking as well as attitudes and values for lifelong learning A resourceful text for students researchers and practitioners interested in the rich development of STEM education and practical methods for a variety of learning approaches from elementary to secondary education has been provided

Technology's Challenges and Solutions in K-16 Education during a Worldwide Pandemic Li-Ting Chen, Leping Liu, Karen Pugh, 2023-10-21 The book not only provides empirical evidence of challenges faced by educators and learners during COVID 19 but also gives fresh insights on how educators and education administrators may act proactively to prepare for an emergency situation The school year of 2020 was unlike any other Globally the outbreak of COVID 19 impacted learners and educators in all levels Many learners were forced to rapidly transit from face to face to online learning while educators were required to hastily convert in person to online delivery mode What challenges did the educators and learners face and what were the possible solutions How can technology as a tool be used to enhance teaching and maximize student learning when an emergency occurs This book addresses these two questions With contributions from international scholars the book begins by providing the context of COVID 19 and a brief introduction of five empirical studies included in the book as well as suggesting directions for future research Subsequent chapters represent a variety of research approaches and perspectives from learners educators and parents of learners but all share a common focus on challenges faced by educators and learners as well as opportunities to use technology as a tool to maximize student learning during a worldwide pandemic Technology's Challenges and Solutions in K 16 Education during a Worldwide Pandemic will be a key resource for educators academics researchers and students of Education Instructional Design and Technology Educational Leadership and Policy Educational Research Educational Technology Research Methods and Sociology STEM Education and Curriculum and Instruction The chapters included in this book were originally published as a special issue of Computers in the Schools [A Guide to Teaching Statistics](#) Michael R. Hulsizer, Linda M. Woolf, 2009-01-30 A Guide to Teaching Statistics Innovations and Best Practices addresses the critical aspects of teaching statistics to undergraduate students acting as an invaluable tool for both novice and seasoned teachers of statistics Guidance on textbook selection syllabus construction and course outline Classroom exercises computer applications and Internet resources designed to promote active learning Tips for incorporating real data into course content Recommendations on integrating ethics and diversity topics into statistics education Strategies to assess student's statistical literacy thinking and reasoning skills Additional material online at <http://www.teachstats.org>
