

Hand-out 8: Efficiencies and Market Structures

Specification

-The concept of an efficient market structure in terms of costs, prices, output and profit

-The models of market structure:

- monopoly;
- oligopoly;
- monopolistic competition.

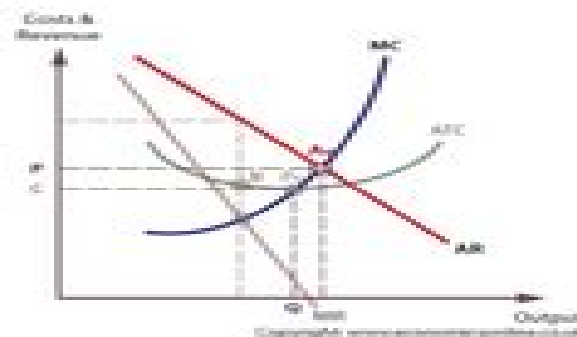

Key Concepts

You need to be able to:

- Define the different efficiencies and apply to 3 market structures
- Explain the impact of competition / concentration on efficiencies
- Draw each of the market structures diagrammatically
- Explain each market structure diagram analytically
- Evaluate the impact that more or less competition will have on a market in terms of efficiency

Allocative Efficiency
