Sir Walter Scott and the Border Minstrelsy Andrew Lang, 1910 Animals and Other People Heather

Keenleyside, 2016-11-21 In *Animals and Other People* Heather Keenleyside argues for the central role of literary modes of knowledge in apprehending animal life. Keenleyside focuses on writers who populate their poetry novels and children's stories with conspicuously figurative animals experiment with conventional genres like the beast fable and write the lives of mice as well as men. From such writers including James Thomson Daniel Defoe Jonathan Swift Laurence Sterne Anna Letitia Barbauld and others she recovers a key insight about the representation of living beings when we think and write about animals: we are never in the territory of strictly literal description relying solely on the evidence of our senses. Indeed any description of animals involves personification of a sort if we understand personification not as a rhetorical ornament but as a fundamental part of our descriptive and conceptual repertoire essential for distinguishing living beings from things. Throughout the book animals are characterized by a distinctive mode of agency and generality: they are at once moving and being moved at once individual beings and generic or species figures. Every cat is also *The Cat*. Animals thus become figures with which to think about key philosophical questions about the nature of human agency and of social and political community. They also come into view as potential participants in that community as one sort of people among others. Demonstrating the centrality of animals to an eighteenth century literary and philosophical tradition *Animals and Other People* also argues for the importance of this tradition to current discussions of what life is and how we might live together.

Remorse Anthony Bash, 2020-10-02 Though the Christian church has a well developed theology of Godward facing remorse about sin it has paid little attention to the interpersonal implications of the remorse that people feel when they wrong one another. Since the nineteenth century important work has been done by psychologists anthropologists philosophers ethicists scientists and lawyers that has implications for the way theologians might think about remorse. This book draws on the biblical record in its ancient settings as well as on insights from contemporary scholarship to offer a new and distinctively Christian contribution to an understanding of remorse. *Sir Walter Scott and the Border Minstrelsy* Andrew Lang, 2021-04-26 In *Sir Walter Scott and the Border Minstrelsy* Andrew Lang offers a profound exploration of Scott's contributions to Scottish folklore and the revival of the border ballad tradition. Lang employs a richly descriptive literary style blending critical analysis with narrative flair as he traverses the cultural and historical backdrop of the Scottish borderlands. In this work Lang delves into Scott's role in compiling the *Border Minstrelsy* and how these tales not only reflect the region's tumultuous history but also the broader European fascination with nationalism and romance in the early 19th century. Andrew Lang a prominent Scottish poet and literary historian was deeply immersed in the folklore of his homeland. His academic pursuits and personal connections to Scotland's narrative tradition informed his passionate discourse on Scott's

literary canon Lang's understanding of the cultural and societal nuances of his time shaped his appreciation for Scott as a pivotal figure in the preservation of Scotland's rich cultural legacy particularly in a period marked by significant change and the quest for national identity This book is a valuable resource for scholars of Scottish literature and folklore enthusiasts alike Lang's insightful analysis not only illuminates the intricacies of Scott's work but also invites readers to reflect on the lasting impact of these traditional narratives in contemporary society I highly recommend this enlightening text to anyone interested in the interplay of literature history and cultural identity
