

Wiper Switch Wiring (Single Speed and Two Speed)

Two Speed

- For Two Speed Wiper Systems, connect the wires of the Wiper switch as indicated in **Figure 21**. These connection will be made using the 2 wires, #905 (org/wht) & #968 (blk/wht), found on the main harness and the Wiper system sub harness included with the kit.
- The opposite ends of Wire numbers, #966 (wht), #993 (lt.blu), #967 (ylw) and #930 (lt.grn) have molded connectors pre-installed and will connect to the factory four way connector found on the Wiper Motor. These wires are color coded to match the original harness but due to inconsistent wire coloring check these circuits to be sure.
- Connect the two wires, #930 (lt.grn), with the female spade terminals to the two male power terminals on the side of the Wiper Motor. It does not matter which wire is connected to each tab.
- Connect the remaining blk wire with the ring terminal to a clean chassis ground. The opposite end of this wire will connect to the black ground wire found on the Wiper Motor.

TWO SPEED WIPER SYSTEM
