Naquin,2001-01-15 The central character in Susan Naquin s extraordinary new book is the city of Peking during the Ming and Qing periods Using the city s temples as her point of entry Naquin carefully excavates Peking s varied public arenas the city s transformation over five centuries its human engagements and its rich cultural imprint This study shows how modern Beijing s glittering image as China s great and ancient capital came into being and reveals the shifting identities of a much more complex past one whose rich social and cultural history Naquin splendidly evokes Temples by providing a place where diverse groups could gather without the imprimatur of family or state made possible a surprising assortment of community building and identity defining activities By revealing how religious establishments of all kinds were used for fairs markets charity tourism politics and leisured sociability Naquin shows their decisive impact on Peking and at the same time illuminates their little appreciated role in Chinese cities generally Lacking most of the conventional sources for urban history she has relied particularly on a trove of commemorative inscriptions that express ideas about the relationship between human beings and gods about community service and public responsibility about remembering and being remembered The result is a book that will be essential reading in the field of Chinese studies for years to come **The Best Short Stories of**

1917, and the Yearbook of the American Short Story Various,2019-11-19 In *The Best Short Stories of 1917 and the Yearbook of the American Short Story* readers are introduced to a curated collection of narratives that encapsulate the period s cultural milieu The anthology showcases a diverse range of literary styles from naturalism to modernism reflecting a transformative time in American literature influenced by the backdrop of World War I and shifting societal norms The selection highlights the skillful craftsmanship of various authors intertwining everyday life with nuanced psychological insights and vivid imagery thus inviting readers to reflect on the complexities of human experience during a time of uncertainty The authorial contributors of this anthology represent a cross section of American literary talent Many were navigating the tumultuous waters of a world at war grappling with themes of love loss and resilience This collection serves as a testament to their creative responses to contemporary events revealing insights about the human condition that resonate throughout the years and offering a historical lens through which to analyze modern storytelling This anthology is a must read for anyone passionate about American literature or interested in the evolution of the short story as a genre It invites its audience to appreciate not only the artistic merit of its narratives but also their sociopolitical context making it an invaluable resource for scholars students and casual readers alike *Russia and China* Michal Lubina,2017-10-23 This book depicts the sophisticated relationship between Russia and China as a pragmatic one a political marriage of convenience Yet at the same time the relationship is stable and will remain so After all bilateral relations are usually based on pragmatic interests and the pursuit of these interests is the very essence of foreign policy And as often happens in life the most long lasting marriages are those based on convenience The highly complex complicated ambiguous and yet indeed successful relationship between Russia and China throughout the past 25 years is difficult to grasp theoretically Russian and Chinese elites are hard core

realists in their foreign policies and the neorealist school in international relations seems to be the most adequate one to research Sino Russian relations Realistically throughout this period China achieved a multidimensional advantage over Russia Yet simultaneously Russia China relations do not follow the patterns of power politics Beijing knows its limits and does not go into extremes Rather China successfully seeks to build a longterm stable relationship based on Chinese terms where both sides gain albeit China gains a little more Russia in this agenda does not necessary lose just gains a little less out of this asymmetric deal Thus a new model of bilateral relations emerges which may be called by paraphrasing the slogan of Chinese diplomacy as asymmetric win win formula This model is a kind of back to the past a contemporary equivalent of the first model of Russia China relations the *modus vivendi* from the 17th century achieved after the Nerchinsk treaty
